ADICHUNCHANAGIRI UNIVERSITY

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional and philosophical foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolise courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Honourable Chancellor Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolises Global standards of education, with Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives liberty, power, pleasure and honour. Both science and spirituality enrich our knowledge leading us to the liberation from physical, mental and external bonds, while liberation from internal bonds is attained through ethics and religion. Hindu scriptures say: 'Savidya ya vimuktaye - that which liberates is knowledge'. Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty. Knowledge of Science is about doing while Knowledge of Spirituality is about being. It is basically a way of developing a holistic way of life – living a mature and balanced life, achieving the integration of personality.

Truth is the regime of both science and spirituality. Science is an objective knowledge while spirituality is a subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind system.

Our Guiding Force

Paramapoojya

Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji

Hon'ble Chancellor

A University is essentially a community of students and teachers. The two have to work in tandem for the one single purpose of advancing knowledge and disseminating it. If they are at any time distracted from this straight path of pursuing truth for its own sake and get led away, there will be disastrous consequences to the University and the Community.

Education is a process, which contributes to socio-economic development of the Nation. The efforts taken to provide education to the masses, has made India emerge as a knowledge society and an economic power. We feel proud to act as contributors of this social transformation. We get encouragement, by looking at bright and successful careers of our millions of students, which subsequently benefit the society.

In this University, the three things – Sciences, humanities and religion work together as parts of one whole. Human knowledge cannot be divided against itself. Everything that you do is both secular and sacred. Everything that you do is done with the background of eternity. You cannot do a thing unless you have that sense that we are all humble creatures in this world, asked to carry out our particular avocations or activities. Whatever studies we have, whatever learning we possess, whatever skill we acquire, we must take a pledge that we will use them for the betterment of humanity, for the betterment of the human race, for bringing the goal of one man, one humanity and one universe of brotherhood, peace and harmony. It is that kind of pledge that every student should take.

We are pleased to know that Adichunchanagiri University is bringing out its fifth annual report for the year 2022-23 with an incremental increase in the growth and development of the University.

We beseech the divine blessings of Lord Kalabhyraveshwara Swamy and Poojya Guruji.
May God bless you all.

MESSAGE

Registrar

I am extremely happy that Adichunchanagiri University is bringing out its 5th Annual report for the year 2022-23. During the last five years, the University has made expected progress and development in the areas of Engineering Technology and Management Humanities and Social Sciences, Natural sciences and Allied Health Sciences. Our accomplishments over the period reflect the strength of our Vision-Mision.

We are happy to say that there has been a considerable increase in student enrollment in Physical Facility, Equipment, Human Resources and Programmes, Research Patents & Publications, Community Health Services, and Social Development Activities. So far three batches of students have graduated from the University, I am sure that these students are pursuing rewarding careers and their contribution to society will be remarkable.

As we place this annual report, I am indeed greatful to the Hon'ble Chancellor and Vice Chancellor and University officers for their continuous guidance and support. I express my sincere thanks to the staff for their contribution in bringing out this Annual Report 2022-23.

1. SRI ADICHUNCHANAGIRI MAHASAMSTHANA MATH

Adichunchanagiri Mahasamsthana Math is situated on a rocky hill at Sri Adichunchanagiri Kshetra, Nagamangala Taluk, Mandya District, Karnataka State, 110 Kms west of Bengaluru at an altitude of above 3,300 ft. The lush green woods and serenity of the lakes provide a sanctified atmosphere for spiritual aspirants to meditate and the Seers to internalize themselves. Amidst this serenity stands the Adichunchanagiri Mahasamsthana Math (https://goo.gl/maps/FXt5o6mT63kGAQir5) with Lord Gangadhareshwara as the presiding deity along with four incarnations of Lord Shiva viz., Lord Malleshwara, Lord Kattale Someshwara, Lord Gavi Siddeshwara, and Lord Chandramouleshwara in their ferocious forms for demolishing the Demons and the unrighteous. People of all sections of society worship Lord Kalabhyraveshwara across the country.

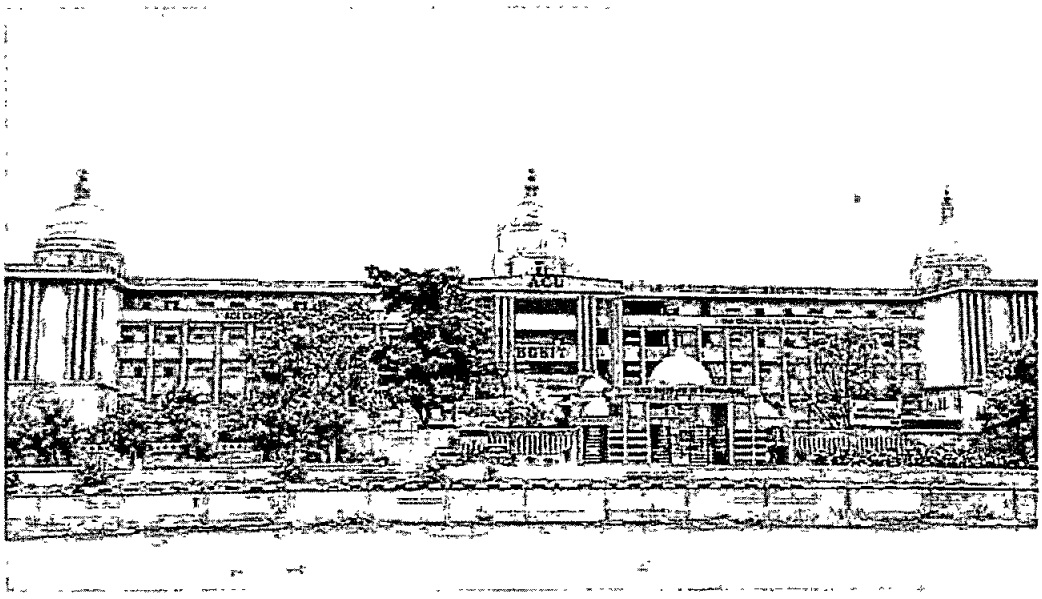

2. SRI ADICHUNCHANAGIRI SHIKSHANA TRUST ®

Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji established Sri Adichunchanagiri Shikshana Trust (R) in 1973 with the prime aim of enlightening the rural youth and facilitating education not only accessible, but also affordable. Presently, the Trust is running 518 Educational Institutions across India and abroad offering quality education to about 1.5 lakh students with a scientific outlook, cultural background and spiritual touch.

2. v. Conferences / Seminars/ Workshops / Symposia attended by Faculty: 150

3. Research, Innovations and Extension

3. i. Research Laboratories

Sl. No.	Name of the laboratory and Lab in-charge Major equipment including Make & Model and Total Cost
1	**Research Lab -** Dr. K.B. Naveen, Dr.B. Naveen
	MATLAB-14. a. Cadence, Keil U-vision 5, NS-2, Xilinx-14.1 FPGA trainer kit (Spartan-6), Xilinx vivado design suite, Nexus A7-100T FPGA trainer board, Signal generator, Oscilloscope. **Rs.6,30,463/-**
2	**Concrete & Highway materials Lab –** Mr.R.R. Gagan Krishna
	Compression testing machine, SCC test equipments, Abrasion testing machine, Impact testing machine. **Rs.3,42,316/-**
3	**BMT Lab –** Mr. Deviprasad
	Electrically operated vane shear testing apparatus, electrically operated triaxial compression testing apparatus, electrically operated direct shear testing apparatus. **Rs.13,68,057/-**
4	**Geotechnical Engineering Lab –** Mr.R. Sunil
	Electrically operated vane shear testing apparatus, electrically operated triaxial compression testing apparatus, electrically operated direct shear testing Apparatus. **Rs.6,36,810/-**
5	**Structural Engineering Lab -** Mr.H.R. Mahalinge Gowda
	Shake table equipment. **Rs.9,54,000 /-**
6	**CAD Lab -** Mrs. K. Manjula
	Computers, Printer, Software's (Auto CAD, STAAAD Pro., ETABS) **Rs.11,50,000/-**
7	**Environmental Engineering Lab -** Mrs.R. Shruthi
	Atomic Absorption spectrophotometer, Ion analyser, Water analyser kit, UV Visible spectrophotometer, Flame photometer, BOD Incubator. **Rs.16,43,135/-**

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

8	**HHM Lab -** Mrs.B.M. Kavya
	Pelton wheel turbine, Francis turbine, Kaplan turbine, Centrifugal pumps (Multistage). **Rs.10,39,847/-**
9	**Surveying Store -** Mr.R. Sunil
	Auto level, Theodolites, Total station. **Rs.5,73,566/-**
10	**BOT Lab* -** Mr. Balaraju
	RPA software, **Rs. 1 Crore**
11	**R&D Lab* -** Ms. Sindhu
	Virtulive, **Rs. 25 lakhs**
12	Research Lab - **Dr. Girish, K.B**
	Computerised Pin on Disc Wear Testing Machine, Aluminium Melting Furnace (3-5Kgs, Temp- 1000), Stir Casting Equipment 100 rpm, Muffle Furnace (Size: 12" x 6"x 6", Temp-1000), Metal Die (100x40x250mm), Zirconium Nano Particle **Rs.9,01,996/-**

* BOT and R&D labs are used for Online National Entrance Examinations and by research students from other Colleges and Universities.

3. ii. Ongoing research projects:

Sl.No	Name of the Investigator	Category	Funding Agency	Sanctioned Amount & Year	Date of Commencement
1	Dr. Naveen B	Collaborative	AICTE	4 Lakhs 2023	17-01-2023
2	Dr. Naveen B	Individual	KSCST	60 thousand 2023	24-04-2023

3. iii. Details of Research Grants (in Rs.) received

Sl. No	Name of the principal investigator	Funding Agency	Grants received
1	Amulya M P	KSCST	4,000.00
2	Swetha K R	KSCST	4,000.00
3	Namitha A R	KSCST	4,000.00
4	Sunad Kumar	KSCST	3,500.00

Mentor-ward system of the institution conducts regular meetings of the mentor and wards at all phases which provides updated information on the ward's academic performances and also provide a platform to address any issues pertaining to their academics, which is also updated to the parents through e-mail correspondence and formal parent-teacher meetings.

Introduction: In the realm of medical education, the journey to becoming a competent and compassionate healthcare professional can be both challenging and rewarding. To help budding medical students navigate through this intricate process, AIMS has implemented the mentor-mentee system. This powerful framework fosters a supportive and nurturing environment that paves the way for the holistic growth of aspiring doctors.

1. **Defining the Mentor-Mentee System:**
   The mentor-mentee system is a structured program designed to pair experienced and seasoned medical professionals (mentors) with medical students (mentees) to provide personalized guidance, support, and encouragement throughout their academic journey. This relationship extends beyond academics and encompasses personal and professional development, instilling valuable life skills.

2. **The Importance of the Mentor-Mentee Relationship:**
   - Nurturing Personal Growth: Medical college can be overwhelming, and the mentor-mentee system ensures that students have a dependable source of advice and understanding. Mentors can provide a safe space for mentees to discuss their fears, doubts, and aspirations, allowing them to develop confidence and resilience.
   - Fostering Professional Development: Mentors offer invaluable insights into the medical profession, career paths, and opportunities. They share their experiences, helping mentees make informed decisions and set realistic goals.
   - Enhancing Clinical Skills: Through clinical rotations and hands-on experiences, mentors guide mentees in honing their medical skills and bedside manners. This guidance instills a sense of responsibility and ethical conduct, nurturing well-rounded medical professionals.

3. **Benefits of the Mentor-Mentee System:**
   - Reduced Stress and Burnout: Medical students often face stress and burnout due to the rigorous academic curriculum. The mentor-mentee system provides emotional support, reducing the risk of burnout and fostering mental well-being.
   - Improved Academic Performance: Mentees receive personalized learning strategies and academic advice, enhancing their understanding of complex medical concepts and improving overall academic performance.
   - Long-lasting Networking Opportunities: Mentees gain access to the mentor's professional network, opening doors to research collaborations, internships, and potential job opportunities.
   - Encouraging Research and Innovation: Mentors can inspire mentees to engage in research projects and innovative endeavors, promoting a culture of continuous learning and advancement in medical knowledge.

4. **Key Elements of a Successful Mentor-Mentee Program:**
   - Clear Expectations: Establishing clear expectations and goals for the mentor-mentee relationship is vital for its success. Both parties should understand their roles and responsibilities.

Signed By:CN=DR C A SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

- Regular Meetings: Consistent interactions between mentors and mentees facilitate rapport building and ensure continuous support throughout the academic journey.
- Confidentiality and Trust: A mentor-mentee relationship should be based on trust and confidentiality. Mentees should feel comfortable sharing their concerns and aspirations without fear of judgment.
- Structured Feedback: Constructive feedback from mentors helps mentees identify their strengths and areas of improvement, fostering professional growth.

Conclusion:

The mentor-mentee system in our Medical College plays a crucial role in shaping the next generation of healthcare professionals. By providing personalized guidance, emotional support, and fostering an environment of continuous learning, this system empowers medical students to become competent, compassionate, and ethical doctors.

Mentee Mentor Ratio: 10:1 for first year students.

9. (iv) SRI ADICHUNCHANAGIRI COLLEGE OF PHARMACY (SACCP)

SACCP was established in the year 1992 with the objective of providing excellence in Pharmaceutical Education and Research and is approved by the All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI), New Delhi. National Board of Accreditation (NBA) accredits the institute.

The institute is equipped with sophisticated instruments and equipments like Lyophilizer, PCR, Gel Electrophoresis, Microwave Synthesizer, FTIR, HPLC, Gas Chromatography, Inverted Microscope with Fluorescence attachment and Pilot Scale equipments like Freeze Drier, Mini Spray Drier, High Pressure Homogenizer, etc., which enables the students to acquire hands on training for advanced learning.

Conferences, seminars, symposiums, workshops, industrial visits, industrial trainings and guest lectures are regular features that provide knowledge to the students and groom them to develop leadership qualities. Co-curricular activities, sports and games add to the overall development of the students.

VISION

"To produce Globally Competent Pharmacist with Skill, Knowledge & Attitude."

MISSION

"Impart Quality Education and Training to excel in the Pharmacy Profession"

NATIONAL BOARD of ACCREDITATION

ISO 9001-2015 Certified for Quality Management Systems

76-100 band in National Institutional Ranking Framework (NIRF) 2019

5. ii. Student Progression

Sri Adichunchanagiri College of Pharmacy ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory. Progression of a student is reviewed and monitored by the following modes:

- ✔ Class attendance
- ✔ By conducting Internal assessment
- ✔ By Mock Examination
- ✔ Problem Based Learning (PBL)
- ✔ Mentor-Mentee programs
- ✔ Inter and Intra college level quiz
- ✔ Assignments
- ✔ Student Interaction in the class
- ✔ Peer Learning Activities
- ✔ Outcome-Based Internship
- ✔ Case-Based Studies

Progression identifies poor academic performance and provides effective remedial programs to enhance their performance. Individual faculty are involved in motivating and encouraging students to acquire most recent skills and help for making profitable use of knowledge.

Student Empowerment:
Student Empowerment is any attitudinal, structural, and cultural activity, process or outcome where students of any age gain the ability, authority and agency to make decisions and implement changes in their own institutions, learning and education, and in the education of other people, including fellow students of any age and adults throughout education. There are countless ways this can happen as well as many potential outcomes, all of which feature learning, teaching and leadership. It's the idea of creating an environment where students want to learn rather than have to learn. This is that top level of engagement, where students are highly committed and highly focused. The Adichunchanagiri Centre for Entrepreneurs (ACE) help the students by providing proper guidance to take their career into their hands and lead it in the direction they want by discovering new ways of combining resources.

Student Counseling: Purpose of Counseling was to:

- ✔ Understand students learning ability in academics.
- ✔ Assist student work out a plan for solving their difficulties.
- ✔ Know their interests, strengths, weakness and opportunities.
- ✔ Encourage special talents and nurture them to develop.

Students Counseling:
Each faculty counselor was allotted with 15-20 students and they arranged minimum three counseling sessions in each semester i. e Monthly Counseling Session (Before Exam, After Announcement of Results). The faculty counselor collected all the details pertaining to the students and keeps a record of attendance of all the courses of the counseling group and communicated to the parents (three times per semester) through SMS/alternative methods time to time. The report comprised of theory attendance,

practical attendance and Internal Assessment marks. The counselors arranged meetings with parents whenever they found any issues such as the low attendance or poor performance in the examinations etc. While interacting with the students during the counseling session, their grievances were collected; suggestions were provided by the counselor regarding their grievances. Overall Student progress record of a student is depicted in ERP. Students were encouraged to express their views and suggestions for academic and other infrastructural improvements in the college. Head of the Departments takes necessary actions to implement their valid suggestions.

Other concerns that were discussed at the time of counseling were as follows:

1. Academic pressures (lack of concentration and motivation for studies, underachievement, backlogs, exam stress, unhealthy competition)
2. Loneliness and homesickness
3. Peer pressure
4. Procrastination
5. Low confidence and self-esteem etc.

Placement activities (details of participating companies & number of students selected):

Training and Placement Committee:

Placement Head: Dr. B Ramesh; Placement Coordinator: Mr.Amrutananda S Tripathy

Facility: One seminar Hall, two placement and training room, one group discussion room.

Objective and scope: To build industry ready pharmacist and guide the students for higher studies and conduct industrial tour and training and place the students through on campus or off campus placements.

Policies of Training and Placement Cell:

Pre-Placement Policy: TPC enables the Students to Bridge the gap between the Academia and Corporate world. Feedback from industry is collected and the feedback used to design Pre-Placement Training Programs. This important activity is vital to enable the students to achieve desired career objectives. Company–specific orientation is conducted for students prior to all the placement drives organized by the institution. A special orientation program is also conducted before all the International Tours & Visits organized by SACCP and this has resulted in international placement offers for some of our students.

Placement Policy: Campus Recruitment Process: Requirements of a company are received by TPC for campus recruitment. The committee approves the campus placement and a circular is sent to department heads and students about the recruitment. The department shortlists the candidates and send the same to the TPC. The list of students will be forwarded to the corporate and displayed on the Placement notice board.

Off Campus Recruitment: The TPC will shortlist the students from the database matching the company requirements and sends the list to Directors of the departments for approval. The list is displayed on the Placement display board and the same is sent to the corporate for further action.

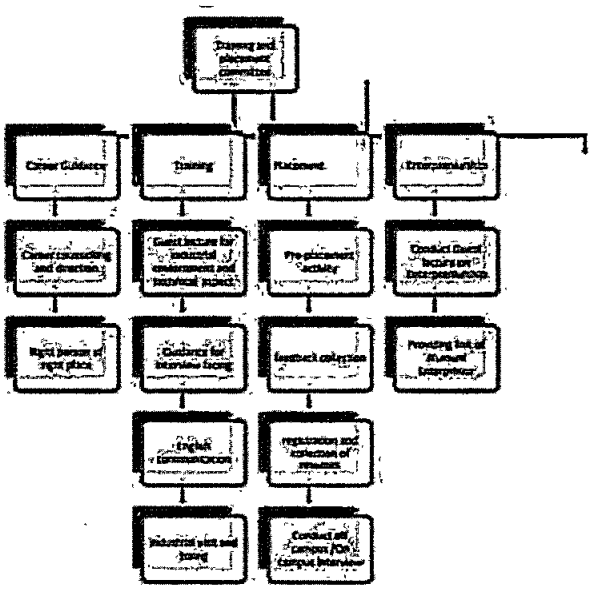

Placement Policies:

- ✔ Every student, who wants to avail the Training & Placement services, has to register with Training & Placement Office, failing to which they cannot have any claim on T & P Services. Every student who registers with TP Office is bound by the terms and conditions in this Placement Policy.

Signed By:CN=DR C ACU SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

- Eligibility criterion is specified by every company participating in Campus Recruitment. Every student, who fulfils this criterion, may attempt the Recruitment Process of any company until he/ she gets the offer.
- No further attempts will be permitted to the students who have secured offers from any company, irrespective of job profile, salary offered, etc. Thus, students can have only one job offer. All the students who secure an offer will have to compulsorily join the Company.
- Once registered, students will not be allowed to withdraw their candidature, from a particular campus recruitment drive unless there are some exclusive points mentioned in the pre-placement talk of which the students were not appraised of earlier. In such a case, exceptions can be made only after the consent of the TPC. Any student who withdraws candidature, rejects offer at any stage, absents from any rounds during recruitment process without sufficient reason, will not have any further claim for TPC Services.
- Any student, who approaches the company officials for revaluation of aptitude test, etc. or attempts any type of canvassing during the campus recruitment, will be disqualified from TPC activities permanently.
- Claim of attendance for attending the Campus Recruitment Process is not admissible. Students are solely responsible and advised to meet the attendance requirements as per the regulations specified by the College.
- Some of the recruiters, in addition to the academic performance of students, ask for their performance in the Mock Tests, Training Sessions, etc. conducted by TPC Office and feedback about their general behaviour from concerned Faculty Members and Departmental Heads. Therefore, the students are advised to adhere to the Academic and other Disciplinary rules of the Institution.
- Students are required to note that the Training & Placement Services is a facility offered by the Institution and cannot be construed as a guarantee of a job offer. The decision regarding making job offers is left to the discretion of the companies participating in the Campus Recruitment. At the end of academic year, if any students are not placed, TPC Office will extend support to such students, only for off-campus recruitment drives.

4.iii. Students Empowerment:

BGS First Grade College had organized special lecture programs for our students to enhance their skills and knowledge.We have given an opportunity to our students to showcase their talents through SEED platform. We are providing students an opportunity to know about the work culture at industries by arranging educational tour.Anti – ragging and sexual harassment prevention committees conducted regular meetings and ensured their existence to help the students.

4.iv. Students Counselling:

There is a mentor for 25 students in all classes. The students are supervised by mentor regardingtheiracademic progress. Mentorsmonitor their mentees' attendance, performance in the tests and internal assessments. Poor performers are identified and counselled suitably.

8. (viii) ADICHUNCHANAGIRI SCHOOL OF NATURAL SCIENCES (ASNS)

Adichunchanagiri University has launched School of Natural Sciences, is a pioneering effort for the creation and dissemination of knowledge in the field of Natural Sciences.

Adichunchanagiri University offers three years B.Sc, and two-year M.Sc. program in Physics, Chemistry, Biochemistry, Molecular Biology, Microbiology and Nanoscience

The Faculty of Natural Sciences at ACU aims to provide an international ambience in a local setting with innovative and interactive teaching methods, globally benchmarked curricula, excellent faculty and key partnerships in research.

University encourages group learning and provides value-added hard and soft skills workshops along with key internship in Final semester.

M.Sc. programs at Adichunchanagiri University have been designed to meet the human resources needs of existing and futuristic research establishments, industries and academic institutions. The outcome-based curriculum designed and followed imbibes required theoretical concepts and practical skills in the domain. Master degree programs with such a curriculum and training would promote research at both the basic and advanced level

The program is designed to produce post graduates with higher-order critical, analytical, problem-solving and research skills; ability to think rigorously and independently to meet higher-level expectations of industries, research organization and academic institutions.

Vision:

- ✔ To provide the highest quality education to students, nurture their talent, promote intellectual growth and shape their personal development; remain dedicated and steadfast in the pursuit of truth aligned with the motto of ACU "sa vidya ya vimukthaye" and serve humanity through the creation of well-rounded, multi-skilled and socially responsible global citizens
- ✔ To create a professionally superior and an ethically strong global workforce.

Mission:

- ✔ To provide students with a sense of history, an understanding of values and ethics, a commitment to law and morality, an appreciation of human creativity and an analytical inquiring mind.
- ✔ Sensitize the students on issues relating to ecology, environment, human rights and gender equality.

4. i.Student Support and Progression

Adichunchanagiri School of Natural Sciences ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory. Progression of a student is reviewed and monitored by the following modes:

- Class attendance
- By conducting Internal assessment
- Assignments
- Seminars
- By Mock Examination
- Mentor-Mentee programs
- Student Interaction in the class

Progression identifies poor academic performance and provides effective remedial programs to enhance their performance. Individual faculty are involved in motivating and encouraging students.

STUDENT EMPOWERMENT

Student empowerment means giving students the ability to not only have a voice and share their thoughts and ideas, but to believe that their voice can lead to positive change. Empowerment is closely linked to self-efficacy and agency. It helps the students gain the power of authority to come out with their decisions for the things they want to implement and the changes they want to see in their educational institutes. Adichunchanagiri School of Natural Sciences help the student to be empowered learners with the qualities of self-motivated, curious, willing to take risks in their learning process, to have a growth mindset and seeing challenges as opportunities for growth and development, rather than obstacles to be overcome.

9. (ix) ACU - CENTRE FOR RESEARCH AND INNOVATION

The Universities with well-established system and facilities for Research and Innovation (R&I) are generally receiving worldwide recognition. Moreover, the number of students seeking admission to Ph.D Programs is gradually increasing. The research system at Adichunchanagiri University is, however, building up. In view of this, the ACU has established state of the art research centre named as **ACU - CENTRE FOR RESEARCH AND INNOVATION (ACU-CRI).**

Research Infrastructure (RI) is a priority for funding agencies, policy makers and scientists. Therefore, development of scientific infrastructure is critical for advancement of nation with ease of access and greater emphasis for their optimal utilization. Accordingly, ACU is keen in developing Research Infrastructure at ACU-CRI. In order to provide state of the art infrastructure for the faculty member, University as procured world-class equipment as mentioned below

9.(x)ADICHUNCHANAGIRI INSTIUTE FOR MOLECULAR MEDICINE (AIMM)

Adichunchanagiri Institute for Molecular Medicine (AIMM), an esteemed Research Institute of Adichunchanagiri University initiated with the visionary motive by Hon'ble Chancellor. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as Director, under the able guidance of Prof.K.N. Thimmaiah and Prof.K.S. Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery Program is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modifiers, cell cycle regulatory enzymes and proteasomes can be a great target, which could be modulated by using these synthetic molecules with outstanding selectivity and potency.

Vision:

Our vision is to comprehensively understand the risk factors associated with the cancer and disease progression by developing new therapeutic small molecules and to identify predictive biomarkers by translational approach.

Research: The research centre oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like Leishmaniasis and other bacterial infections.

The small molecules available from natural products or synthetically formulated, which can be used to modulate the;

- Extracellular growth factors,
- Intracellular transcription factors,
- Proteins lacking enzymatic activities

The above scientific studies will be achieved in collaboration with the pioneer researchers Prof. Peter J. Houghton from Greehey Children's Cancer Research Institute, USA and Prof. Marry Ann Bjoronsti from University of Alabama, USA.

9. (xi). CENTER OF RESEARCH MANAGEMENT & INDUSTRIAL LINKAGE (CORMIL)

OBJECTIVES

1. To conduct workshop at institute level so to enhance academic participation in regard to the submission of projects/schemes to different funding agencies.
2. To mentor and motivate young academics in mastering the art of publication.
3. To create an environment that would foster infra-institutive collaborative interaction within the ACU.
4. To initiate and encourage researcher to researcher level "Letter of Agreement "to enhance inter-institute collaborations.
5. To initiate Memoranda of Understanding (MoU) with Foreign Universities to enhance the presence of ACU internationally, and further facilitate "Student Exchange Programmes"

Organizational Structure

1. Dean of Research, ACU
2. Research Director (CORMIL)
3. Research Cell - Assistant Professor to be on deputation preferably from computer science engineering from BGSIT.
4. Industry Cell (Upon expansion and progression of ACU research, this mentioned post may be filled with a suitable academician as Assistant Professor from Management Discipline)
5. Assistant
6. Attender

Key Functions

1. Identification and dissemination of funding opportunities.
2. Execution of administrative and Technical Support to ACU researcher.
3. Management of Fund remittance and expenses.
4. Monitoring of research progress.
5. Initiations of industry outreach both nationally and globally.

Standard Operational Components with scopes

The different operational components/units of CORMIL shall include operation, monitoring, data collection and compilation, ethics and empowerment, and consulting as described below with a broader perspective:

1. **Operation Unit of CORMIL** shall be responsible to manage and facilitate all internal and external active research grants in ACU. The Unit shall undertake the acquisition of the grants by performing specific activities such as promotion, management and administration ofresearch grants in ACU at national, private and international level.
   The unit shall work closely with the grants agencies at national level such as, Department of Science and Technology (DST), University Grant Commission (UGC), Funding schemes of Ministry of Environment and Forests, Govt. of India, Indian Council of Agricultural Research (ICAR), Indian Council of Medical Research (ICMR), and India Innovation Growth Programme etc. Further, the unit shall explore international outreach.

Signed By:CN=DR C ACU SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

In order to facilitate and encourage ACU research, there have been provisions of internal grants to the selected researchers, within the university. The very objectives of such grants are to create and tune ACU in house researchers to get trained, so to attract research grants at national and international level. These internal research grants shall also be monitored through the Operation Unit under CORMIL.

2. **Monitoring Unit of CORMIL** shall focus on reporting and monitoring the progress of registered research under CORMIL and so shall oversee the applications regarding conference attendance.
   This division shall look into the research progress of all registered research to ensure that the Principal Investigators achieve their expected requirement. Reports of the progress shall be compiled and sent to the sponsors (national/international) based on the timeframe given.
   Further, the unit shall deal with issues involving project extension, change in Principal Investigator in case of the relocation of the same, addition and removal of the project members.

3. **Data Collection and Compilation Unit of CORMIL** shall involve in data acquisition Relating to research and linkages from all constituent colleges, besides that of the principal investigators, and those will be utilized during the time of inspection and as well for retrospection.
   This unit shall be responsible to:
   (i) Prepare periodical report,
   (ii) Check and process applications meant for conference attendance, and
   (iii) Record the number of publications out of each of the registered research.

4. **Ethics and Empowerment Unit** shall work to strengthen ACU journal and future publishing endeavor, academic visibility, research impact and as well ethics. The unit will be involved in organizing workshops, briefings and seminars for scientific writing, to enable the ACU researchers to be a part of the scientific publishing community by increasing the numbers of quality ACU publications.

5. **Consulting Unit shall** look after the different aspects of the academic involvement in providing solutions to industry problems. The main focus shall be on technology transfer and business development on the basis of which ACU shall strive to be an Entrepreneurial University. As a part of this endeavour the unit shall take care of the creation and functioning of research incubators to encourage budding and aspiring young entrepreneurs to grow individually and resulting a natural dissemination of that growth in the form of (i) Job Creation, (ii) Economic Enrichment, (iii) Rural up- liftment, Urbandevelopment, Nation Building, and (iv) ACU brand propagation at the national and globalarena. Those incubators in future shall work as a training grounds/place of apprentice for the ACU students. So, in totality this unit shall work as a catalyst for the transformation of ACU students into next generation of professionals in their respective fields with all in- built professionalism so as to cater to global requirements.

INCUBATION CELL AND ACTIVITIES

1. As part of the objectives, we have established Adichunchanagiri Center for Entrepreneurs (ACE), an incubation cell to initiate entrepreneurial activities.
2. Successfully incubated Arthanaya solutions Pvt limited an Incubate of ACE

9. (Xii) CENTER FOR MOLECULAR PHARMACEUTICS AND ADVANCED THERAPEUTICS (CMPAT)

OBJECTIVES: To pursue research interests pertaining to pharmaceutics, therapeutics and aligning those with the interests of the constituent colleges of ACU by contributing and fostering collaborative research efforts, besides the national and international collaborators.

Core collaborating institutions within ACU: AIMS, SACCP, BGSIT and ACN

Core research strength

- Solubility enhancement of BCS class I drugs and elucidation of the mechanism with the perspective of thermodynamics, solvodynamics, solute solvent interaction and the mechanism being validated by computational chemistry tools.
- Solid state micro structural analysis using powder X-ray diffraction and proton life time annihilation spectroscopy.
- Slid state surface thermodynamics.
- Carbon nanotube aided targeted drug delivery.
- Advanced ophthalmic drug delivery systems with environment sensitive polymers.
- Colloid chemistry: Thermodynamics and dispersion dynamics.
- Bio active bio inorganic supramolecular complex and their solution chemistry.
- Bio-medical devices and hybrid instruments for improved pharmaceutical manufacturing.

9. (xiii) ADICHUNCHANAGIRI SCHOOL OF FACULTY EMPOWERMENT AND PROFESSIONAL DEVELOPMENT (ASFEPD)

Adichunchanagiri School of Faculty Empwerment and Professional Development was established in November 2020 with the following objectives.

1. Curriculum planning and Development
2. Enhance competence in imparting knowledge (T/L skills)
3. Improve knowledge and skills in different modes of assessment
4. Improve ability in communication (language, fluency and body language)
5. Facilitate coordination /collaboration/team work
6. Develop Faculty Soft Skills (Personality Development and Behaviour)
7. Encourge professional advancement through Research and Innovation activities
8. Sensitize teachers on ethical aspects of T/L/E and Research /Innovation activities
9. Develop Leadership, Governance and Management Skills
10. Encourage the faculty to think creatively and strive for excellence
11. Continuous Professional development through attending short term and long term academic and research programs – certificate /fellowship.

To achieve the above objective, Adichunchanagiri University has signed Memorandum of Understanding with Higher Education Skill Development and Research Center (HESDAR), Mysuru.

10. LIBRARY AND INFORMATION SCIENCE

Objectives

- To acquire both physical and virtual collections at all libraries of ACU and enhance the capability of services to meeting the demands of the curricular, instructional, and research programs of the academic community.
- To adopt the collection analysis system in the libraries while acquiring the content for the programs, considering the factors of growth of the collection, particularly in newer areas of inquiry.
- To ensure easy access to collections with emerging integrated technology, so that all collections can be readily accessible.
- To integrate all ACU constituent libraries by acquiring unique software, tools and technologies to enhance the library operations and services for better utility.
- To establish a strong linkage with Government agencies such as INFLIBNET, National Digital Library of India, e-content platforms, National Library of Medicine (USA), and Open Learning Portals in the country and abroad.
- To support for conservation of knowledge created by the ACU and its Constituent Colleges for present and future uses of the learning community.
- To promote information literacy as an activity of the library in enhancing the skills of the stakeholders.

- **Webinars / Training Programs / Orientation program / Sensitization Program organized. Major Initiatives undertaken during 2022-23**

- The library portal: An information gateway has been created with separate interfaces for each of the libraries to disseminate library information.

- The university has subscribed to e-resources such as ProQuest Health Research Premium Collection (An Aggregator), and IEEE-ASPP Online database. A remote access facility has been provided for library users to access the subscribed e-resources.

- DELNET subscription has been renewed to keep continued access to the resources.

- ACU has registered for the NDLI Club to access the resources and participate in the events organized by the Club. All the constituent library stakeholders were enrolled as club members.

- The ACU has subscribed to DrillBit Plagiarism Detection Software, and all libraries are providing Plagiarism services for the academic and research community.

- The Chief Librarian guides and supervises the Ph.D. research scholars who are pursuing a Ph.D. in Library and Information Science at ACU.

- Research support service is one of the value-added services of the library. Librarians offered advisory and consultancy services to the researchers, particularly on research discovery, research tools, and techniques (bibliographical, analytical, paraphrasing, citation, visual, and plagiarism) required for their academic, and research pursuits.

- Mapping the research data being used in quality initiatives, ranking frameworks, accreditation, and other processes of an institution/university.

- The library has initiated the Research Management System in the university (https://acu.irins.org) to showcase the research productivity of ACU. New faculty Profiles have been created and keep on updating their data on a regular basis.

- Librarians have represented several Academic, Administrative, and Research committees. They are participating in University Council/College Councils, Academic and Research Councils. Librarians are working for institutional quality initiatives such as IQAC, NBA, nirf, Ranking, and ISO Certification programmes.

- The AIMS-Learning Resource Centre instituted a "Best Library User Award" for the two outgoing MBBS students of the year. Dr. Abhay Hariesh Prabhu and Dr. Kallesh K have won the Best Library User Award for the year 2022-23. The Award was issued to them on the occasion of the Graduation Day celebration.

- ACU Libraries have conducted annual Events by the department. During the occasion, a few Webinars, workshops, and Guest lectures were organized for the faculty and students.

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional and philosophical foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolise courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Honourable Chancellor Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolises Global standards of education, with Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives liberty, power, pleasure and honour. Both science and spirituality enrich our knowledge leading us to the liberation from physical, mental and external bonds, while liberation from internal bond attained through ethics and religion. Quote from Hindu scriptures '*Sa Vidya Ya Vimuktaye*' - that which liberates is knowledge. Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty.

Truth is the regime of both science and spirituality. Science is an objective knowledge while spirituality is a subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind system. Knowledge of Science is about doing while Knowledge of Spirituality is about being. Essentially, integrating personality with living a mature and balanced life - a holistic way of life.

"Our Guiding Force"

Paramapoojya Jagadguru

Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji

Hon'ble Chancellor

A University is essentially a community of students and teachers. The two have to work in tandem for the one single purpose of advancing knowledge and dissemination it. If they are at any time distracted from this straight path of pursuing truth for its own sake and get led away, there will be disastrous consequences to the University and the Community.

Education is a process, which contributes for the socio-economic development of the Nation. The efforts taken to provide education to the masses, has made India emerge as a knowledge society and an economic power. We feel proud to act as contributors of this social transformation. We get encouragement, looking at bright and successful careers of our millions of students, which subsequently benefit the society.

In this University, the three things – Sciences, humanities and religion work together as parts of one whole. Human knowledge cannot be divided against itself. Everything that you do is both secular and sacred. Everything that you do is done with the background of eternity. You cannot do a thing unless you have that sense that we are all humble creatures in this world, asked to carry out our particular avocations or activities. The world is moving. It is 10,000 years ago that civilization started and since then we have marched forward from one stage to another. The process in which we are now engaged is the process of attaining unification of the whole world. Whatever studies we have, whatever learning we possess, whatever skill we acquire, we must take a pledge that we will use them for the betterment of humanity, for the betterment of the human race, for brining the goal of one man, one humanity and one universe of brotherhood, peace and harmony. It is that kind of pledge that every student should take.

We are pleased to know that Adichunchanagiri University is bringing out its third annual report for the year 2021-22 with an incremental increase in the growth and development of the University.

We beseech the divine blessings of Lord Kalabhyraveshwara Swamy and Poojya Guruji. May God bless you all.

Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji

FOREWORD

Hon'ble Vice Chancellor

Greetings from Adichunchanagiri University, BG Nagara

A rural based Unitary Campus, Multi-Disciplinary Adichunchanagiri University has made considerable progress and development in the areas of Engineering & Technology, Health Sciences, Management & Technology, Humanities & Social Sciences, Natural Sciences and Allied Health Sciences, Humanities & Social Sciences and Natural Sciences in the last four years under the visionary and dynamic leadership of Parama Poojya Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji, The Hon'ble Chancellor of the University.

There has been a considerable increase in physical facility, equipment, human resource, academic programs, enrolment of students, research publications, patents and community services during the financial year 2021-22 in-spite of the devastation caused by Covid-19 pandemic. Quality assurance, enhancement and sustenance was the hallmark of the University with NBA, NABH & NABL accreditations and ISO Certifications.

AIMS was able to augment adequate and appropriate infrastructure, learning resources and human Resource to enhance the quality of Teaching-Learning and Evaluation for the admission of 250 students for MBSS Program from the academic year 2022-23.

Efforts were made to build Research capacity with the recruitment of eminent scientists and equipment upgrade.

The University has applied for visitation by Karnataka State Higher Education Council (KSHEC), University Grants Commission (UGC) and National Medical Commission (NMC). The University is in a state of preparedness for the ensuing visitation by KSHEC and UGC. We need to prepare ourselves for NAAC Accreditation and NIRF Ranking processes.

I am very confident that the dream of Poojya Mahaswamiji, the Hon'ble Chancellor will be realised at the earliest.

I thank the Pooya Mahaswamiji, the Hon'ble Chancellor, all the Authorities, Officers, Employees and Students for their continued support for the rapid growth and development of the University.

I wish the University all success in all its future endeavours.

Prof. Dr. S. Chandrashekar Shetty

MESSAGE

Registrar

"Education is not a preparation for life; education is life itself "

I am extremely happy that, Adichunchanagiri University is bringing out its 4th annual report for the year 2021-22. During the last 4 years, our university has grown in the areas of academics, co-curricular, extracurricular, research & development. Our accomplishments over the period reflect the strength of our Vision, Mission, Core Values and Culture. This year has been significant, as we have made huge investment in infrastructure, which was essential to make our campus state-of the-art facilities.

We are glad to say that the student enrolments have increased and the new courses that have started are doing well. So far, 2 batch students have graduated from the University. I am sure that these students are pursuing rewarding careers and will contribute towards over –all growth of the nation and live a worthwhile life.

As we place this Annual Report, I am indeed grateful to the Hon'ble Chancellor, Vice Chancellor and the University Officers for their continued guidance and support.

I express my sincere thanks to the staff for their contribution in bringing out this annual report 2021-2022

Adichunchanagiri Mahasamsthana Math is situated on a rocky hill at Sri Adichunchanagiri Kshetra, Nagamangala Taluk, Mandya District, Karnataka State, 110 Kms west of Bengaluru at an altitude of above 3,300 ft. The lush green woods and serenity of the lakes provide a sanctified atmosphere for spiritual aspirants to meditate and the Seers to internalize themselves. Amidst this serenity stands the Adichunchanagiri Mahasamsthana Math (https://goo.gl/maps/FXt5o6mT63kGAQir5) with Lord Gangadhareshwara as the presiding deity along with four incarnations of Lord Shiva viz., Lord Malleshwara, Lord Kattale Someshwara, Lord Gavi Siddeshwara, and Lord Chandramouleshwara in their ferocious forms for demolishing the Demons and the unrighteous. People of all sections of society worship Lord Kalabhyraveshwara across the country.

2. SRI ADICHUNCHANAGIRI SHIKSHANA TRUST ®

Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji established Sri Adichunchanagiri Shikshana Trust (R) in 1973 with the prime aim of enlightening the rural youth and facilitating education not only accessible, but also affordable. Presently, the Trust is running 518 Educational Institutions across India and abroad offering quality education to about 1.5 lakh students with a scientific outlook, cultural background and spiritual touch.

11.5.1 (i). Community Health Care Services

By virtue of the institution being located in a rural place and run by the Sri Adichunchanagiri Math, one of its objectives is to provide access to quality health care at an affordable cost to the rural mass. AHRC caters to the healthcare needs of rural masses from a wide geographical area

Signed By:CN=DR C K SUBBARAYA, OU=2, SERIALNUMBER=f49819a1c439999601a8258717f6e

including 5 districts namely Mandya, Hassan, Tumakuru, Ramanagara and Bengaluru Rural. As a part of the institution's social responsibility, AHRC conducted various health camps all through the year to serve the rural population with a sole objective of providing healthcare at the door steps of the poor and needy, health education and creating awareness on the various dimensions of healthy living as part celebrating National Programs on health as prescribed by the Central Government and WHO.

AHRC has conducted a total of 128 health camps, 12 General Health check-up camps, 77 Eye Camps, 03 OBG camp, 01 ENT Camp, 03 Blood Donation Camps, 01 Dermatology Camp, 01 Cancer Awareness Program and 01 Diabetic camp in the academic year 2021-22.

11.5.1. (ii) Free and Subsidized Health Care Services

Adichunchanagiri Hospital and Research Centre, a teaching hospital spent an amount of Rs. 1, 52, 28, 853/- towards free and subsidized treatment during the year 2021-22 at an average of Rs. 12, 69,071/- lakhs per month.

The hospital also provides free food for all its inpatients irrespective of their paying capacity. An amount of Rs. 31, 23,109/- was spent towards providing free food for all inpatients in the year.

11.5.1. (iii) Adoption and Development of Government Schools, Nagamangala Taluk

Adichunchanagiri University has adopted the following 14 Government Schools for development.

Sl. No.	School Name & Place	Sl. No	School Name & Place
1	Brahmadevarahalli	8	Maradipura
2	Samakahalli	9	Lakshmipura
3	Bacchikoppalu	10	Konanuru
4	Kempanakoppalu	11	Juttanahalli,
5	B. Shettihalli	12	Honnabettada Hosuru
6	Ijjalaghatta	13	A. Sriramanahalli
7	Chottakyathanahalli	14	Jodineralakere

Developmental works like art painting, toilet renovation, Sanitary Pipe line were done in Kembare and Bommenahalli. 200 books were purchased and supplied to library of Kembare and Bommenahalli schools each. Tree saplings were planted in both school campuses.

7(i). BGS INSTITUTE OF TECHNOLOGY

BGS Institute of Technology (BGSIT), B.G. Nagara was established in 2005 under the aegis of Sri Adichunchanagiri Shikshana Trust (R.). BGSIT has the approval of the All India Council for Technical Education (AICTE), New Delhi, an Apex Body of Technical Education in India. Government of Karnataka has also recognized this institute as one of the leading centers for technical education in Karnataka. The College is committed to the cause of producing tomorrow's engineers & working on today's pioneers. The institute emphasizes on the enhancement of skills among the students and ultimately prepares them to serve the Nation. The institution has excellent learning infrastructure, highly qualified teaching faculty and other common facilities for implementing effective Teaching, Learning and Evaluation processes. The college has a well-defined system for implementing the curriculum for each program. The dynamic and committed faculty ensures high standards of learning and embedding social and ethical values in students.

VISION

BGSIT is committed to the cause of creating tomorrow's engineers by providing quality education inculcating ethical values.

MISSION

3. i. Research Laboratories

Sl. No.	Name of the Laboratory and Lab in charge	Name of the Major equipments including Make and Model and Total Cost
1	**Histology Laboratory – Anatomy** - Dr. Sharada .B. Mensinkai	
	Microtomes, Paraffin embedding bath, Hot plates, Hot air oven	Rs. 2,000/-

Signed By:CN=DR C K SUBBARAYA
SERIALNUMBER=f49819a1c439999601a8258717f6e

2	**Research Lab – Physiology** -Dr. Sudhir, G.K., Dr. Ravi G.N., Dr. Malini M.
	Computerised polyrite D (8 channel), Computerised polygraph (4 channel) Physiograph, Single channel,. BPL Spirometer, RMS Helios spirometer, Treadmill – Omega; **Rs. 11,05,987/-**
3	**Research Laboratory – Biochemistry** –Dr. Aliya Nusrath, Dr. Asha Rani N, Dr. Shilpashree, Y.D.
	Binocular Microscope, Distillation Unit (glass), U V Spectrophotometer, Semi-auto analyser chem 5-plus. Rs. **3,26,000/-**
4	**Clinical Biochemistry laboratory-** Dr. Aliya Nusrath, Dr. Asha Rani N, Mr. Somashekar G N, Shilpashree, Y.D., Dr. Namitha D, Dr. Kruthi B N
	Cobas b 121(Roche) - ABG analyser CKKA1c, Cobas e411-Roche Hitechi – hormone analyzer, Erba chem.-5 plus V2 Transasia – semi automated analyzer, Erba EM-200 (Transasiq)- fully automated analyze CKK lyte Auto Quant 400 (Fully Auto chemistry analyzer) (Meril), Erba semi-auto analyser, Meril Auto quant 400, Biochemistry auto analyser, Meril Auto quant 200, Roche c1 11 **Rs. 2,84,67,500/-**
5	**Research Laboratory – Pathology-** Dr. Vijayshankar, S., Dr. Abhishek, M.G., Dr.K. Amita
	Automatic, high speed slide scanner for converting slides in digital format with software & database management Olympus BX53 , Deca head microscope with high end optics with HDMI multi-output photographic camera (>5MP) including software, Olympus polarizer & analyzer filter set with HDMI 6MP Camera with 55" LED screen , Olympus Trinocular Research Multi-head (Penta) Microscope Modal – CX31TR with 42" LED TV make – Haier., Olympus trinocular research Microscope Model - CX31TR with JENOPTIK GERMANY XT3 CORE USB DIGITAL Microphotography system with Progress Imaging with Suitable Desktop Computer, Fluorescence microscope, IHC setup (manual). **Rs.53,76,863/-**
6	**Central Laboratory – Pathology-** Dr. Sanjay, M.
	6 part Hematology analyser- Horiba Yomizen H 550, 3 part Hematology analyser- Sysmax- XP 100, 3 part Hematology analyser -Sysmax- KX -21, Automated ESR analyser -Alifax Rollar, Coagulation analyser, T coag – KC1 delta. **Rs. 20,60,000/-**
7	**Research Laboratory – Microbiology** - Dr. Shakthi, R., Mrs. Mamatha, V.A.
	Olympus Trinocular Research Microscope, Binocular Microscope, Bio Safety Cabinet Class II A (Alpha Linear-India), BOD Incubator (Alpha Linear-India), Deep Freezer -20°C (REMI-India), ELISA Reader, ELISA Washer (Robonik-India). **Rs. 6,44,100/-**
8	**Central Laboratory – Microbiology** - Dr. Vidyasagar, K., Mr.A.L. Basavaraju
	Biosafety Cabinet Class II A Biohazard in- India, QBC – Diagnostics, BOD- Incubator, QBC – QBC centrifuge, Fluorescent Microscope, Binocular Microscope, Laminar air flow cabinet Centrifuge (REMI-India). **Rs. 8, 54,490/-**
9	**Virology Laboratory – Microbiology,** Dr. Vidyasagar K, Dr. Megha S, Mr. Ramakrishna
	PCR machine, Biosafety cabinet type 2A, Laminar air flow, Vertex, POlate centrifuge, Freezer centrifuge -20°C freezer, - 80°C freezer, **Rs. 12,16,825/-**
10	**Research Laboratory – Pharmocoloy,** Dr. Vinaya M
	Analytical balance, Passive avoidance apparatus, Metabolic cage, T-Maze, Elevated Plus maze, **Rs. 3,72,500/-**

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

11	**Pulmonary function testing laboratory – Physiology / ENT** - Dr. Ravi G.N., Dr. Kiran M Naik
	Computerized spirometer (RMS Helios), **Rs. 80,000/-**
12	**Audiometry Laboratory – ENT** - Dr. Kiran Naik, Dr. Vinay S Bhat, Mrs. Chaitra
	Oto Acoustic Emission (RMS Emissia - Echo lab OAE-ABR) Pure Tone Audiometer (Elkan Eda 3N3 - diagnostic audiometer, multi-channel) Impedance Audiometer (Touch TMYP MI34 85/8805) Computerized spirometer (RMS Helios), **Rs. 8,50,000/-**

Note: students from Allied Health Science also use the research laboratories.

7. (iv) SRI ADICHUNCHANAGIRI COLLEGE OF PHARMACY (SACCP)

SACCP was established in the year 1992 with the objective of providing excellence in Pharmaceutical Education and Research and is approved by the All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI), New Delhi. National Board of Accreditation (NBA) accredits the institute.

The institute is equipped with sophisticated instruments and equipments like Lyophilizer, PCR, Gel Electrophoresis, Microwave Synthesizer, FTIR, HPLC, Gas Chromatography, Inverted Microscope with Fluorescence attachment and Pilot Scale equipments like Freeze Drier, Mini Spray Drier, High Pressure Homogenizer, etc., which enables the students to acquire hands on training for advanced learning.

Conferences, seminars, symposiums, workshops, industrial visits, industrial trainings and guest lectures are regular features that provide knowledge to the students and also groom them to develop leadership qualities. Co-curricular activities, sports and games add to the overall development of the students

NBA NATIONAL BOARD OF ACCREDITATION

ISO 9001-2015 Certified for Quality Management Systems.

76-100 band in National institutional Ranking Framework (NIRF) 2019.

5. i. No of students receiving scholarship/Freeships : 51

5. ii. Student Progression

Sri Adichunchanagiri College of Pharmacy ensures all students are passing required

units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory. Progression identifies poor academic performance and provides effective remedial programs to enhance their performance. Individual faculty are involved in motivating and encouraging students to acquire most recent skills and help for making profitable use of knowledge.

5. iii. Student Empowerment

Student Empowerment is any attitudinal, structural, and cultural activity, process or outcome where students of any age gain the ability, authority and agency to make decisions and implement changes in their own institutions, learning and education, and in the education of other people, including fellow students of any age and adults throughout education. There are countless ways this can happen as well as many potential outcomes, all of which feature learning, teaching and leadership. It's the idea of creating an environment where students want to learn rather than have to learn. This is that top level of engagement, where students are highly committed and highly focused. The Adichunchanagiri Centre for Entrepreneurs (ACE) help the students by providing proper guidance to take their career into their hands and lead it in the direction they want by discovering new ways of combining resources.

5. iv. Student Counselling

Each faculty counselor was allotted with 15-20 students and they arranged minimum three counseling sessions in each semester i. e Monthly Counseling Session (Before Exam, After Announcement of Results). The faculty counselor collected all the details pertaining to the students and keeps a record of attendance of all the courses of the counseling group and communicated to the parents (three times per semester) through SMS/alternative methods time to time. The report comprised of theory attendance, practical attendance and Internal Assessment marks. The counselors arranged meetings with parents whenever they found any issues such as the low attendance or poor performance in the examinations etc. While interacting with the students during the counseling session, their grievances were collected; suggestions were provided by the counselor regarding their grievances. Overall Student progress record of a student is depicted in ERP. Students were encouraged to express their views and suggestions for

academic and other infrastructural improvements in the college. Head of the Departments takes necessary actions to implement their valid suggestions.

Other concerns that were discussed at the time of counselling were as follows:

1. Academic pressures (lack of concentration and motivation for studies, under achievement, backlogs, exam stress, and unhealthy competition)
2. Loneliness and homesickness
3. Peer pressure
4. Procrastination

7. (viii) ADICHUCNANAGIRI SCHOOL OF NATURAL SCIENCES (ASNS)

Adichunchanagiri University has launched School of Natural Sciences, is a pioneering effort for the creation and dissemination of knowledge in the field of Natural Sciences.

Adichunchanagiri University offers three years B.Sc (Internship Embedded Program) and two-year M.Sc.

- program in Physics, Chemistry, Biochemistry, Molecular Biology, Microbiology and Nanoscience

The Faculty of Natural Sciences at ACU aims to provide an international ambience in a local setting with innovative and interactive teaching methods, globally benchmarked curricula, world class faculty and key partnerships in research.

University encourages group learning and provides value-added hard and soft skills workshops along with key internship in Final semester.

M.Sc. programs at Adichunchanagiri University have been designed to meet the human resources needs of existing and futuristic research establishments, industries and academic institutions. The outcome based curriculum designed and followed imbibes required theoretical concepts and practical skills in the domain. Master degree programs with such a curriculum

- and training would promote research both at the basic and advanced level

The program is designed to produce post graduates with higher-order critical, analytical, problem-solving and research skills; ability to think rigorously and independently to meet higher-level expectations of industries, research organization and academic institutions.

7. (ix) ACU - CENTRE FOR RESEARCH AND INNOVATION

The Universities with well-established system and facilities for Research and Innovation (R&I) are generally receiving worldwide recognition. Moreover, the number of students seeking admission in Ph.D Programs is gradually increasing. The research system at Adichunchanagiri University is, however, building up. In view of this, the ACU has established state of the art research centre named as ACU-CRI.

Chancellor. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as Director, under the able guidance of Prof.K.N. Thimmaiah and Prof.K.S. Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery Program is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modifiers, cell cycle regulatory enzymes and proteasomes can be a great target which can be modulated by using these synthetic molecules with outstanding selectivity and potency.

Vision and Mission.

- Our vision is to comprehensively understand the risk factors associated with the cancer and disease progression by developing new therapeutic small molecules and to identify predictive biomarkers by translational approach.

Research: The research centre oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like Leishmaniasis and other bacterial infections.

The small molecules available from natural products or synthetically formulated, which can be used to modulate the

- ✓ Extracellular growth factors,
- ✓ Intracellular transcription factors,
- ✓ Proteins lacking enzymatic activities

The above scientific studies will be achieved in collaboration with the pioneer researchers Prof. Peter J. Houghton from Greehey Children's Cancer Research Institute, USA and Prof. Marry Ann Bjoronsti from University of Alabama, USA.

8. (xi). CENTER OF RESEARCH MANAGEMENT & INDUSTRIAL LINKAGE (CORMIL)

OBJECTIVES:

1. To conduct workshop at institute level so to enhance academic participation in regard to the submission of projects/schemes to different funding agencies.
2. To mentor and motivate young academics in mastering the art of publication.
3. To create an environment that would foster infra-institutive collaborative interaction within the ACU.
4. To initiate and encourage researcher to researcher level "Letter of Agreement "to enhance inter-institute collaborations.
5. To initiate Memoranda of Understanding (MoU) with Foreign Universities to enhance the presence of ACU internationally, and further facilitate "Student Exchange Programmes"

Organizational Structure

1. Dean of Research, ACU
2. Research Director (CORMIL)
3. Research Cell - Assistant Professor to be on deputation preferably from computer science engineering from BGSIT.
4. Industry Cell (Upon expansion and progression of ACU research, this mentioned post may be filled with a suitable academician as Assistant Professor from Management Discipline)
5. Assistant
6. Attender

Key Functions

1. Identification and dissemination of funding opportunities.
2. Execution of administrative and Technical Support to ACU researcher.
3. Management of Fund remittance and expenses.
4. Monitoring of research progress.
5. Initiations of industry outreach both nationally and globally.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

Standard Operational Components with scopes:

The different operational components/units of CORMIL shall include operation, monitoring, data collection and compilation, ethics and empowerment, and consulting as described below with a broader perspective:

1. **Operation Unit of CORMIL** shall be responsible to manage and facilitate all internal and external active research grants in ACU.

   The Unit shall undertake the acquisition of the grants by performing specific activities such as promotion, management and administration of research grants in ACU at national, private and international level.

   The unit shall work closely with the grants agencies at national level such as, Department of Science and Technology (DST), University Grant Commission (UGC), Funding schemes of Ministry of Environment and Forests, Govt. of India, Indian Council of Agricultural Research (ICAR), Indian Council of Medical Research (ICMR), and India Innovation Growth Programme etc. Further, the unit shall explore international outreach.

   In order to facilitate and encourage ACU research, there have been provisions of internal grants to the selected researchers, within the university. The very objectives of such grants are to create and tune ACU in house researchers to get trained, so to attract research grants at national and international level. These internal research grants shall also be monitored through the Operation Unit under CORMIL.

2. **Monitoring Unit of CORMIL** shall focus on reporting and monitoring the progress of registered research under CORMIL and so also shall oversee the applications regarding conference attendance.

   This division shall look into the research progress of all registered research to ensure that the Principal Investigators achieve their expected requirement. Reports of the progress shall be compiled and sent to the sponsors (national/international) based on the timeframe given.

   Further the unit shall deal with issues involving project extension, change in Principal Investigator in case of the relocation of the same, addition and removal of the project members.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

3. **Data Collection and Compilation Unit of CORMIL** shall involve in data acquisition relating to research and linkages from all constituent colleges, besides that of the principal investigators, and those will be utilized during the time of inspection and as well for retrospection .

This unit shall be responsible to:

(i) Prepare periodical report,

(ii) Check and process applications meant for conference attendance, and

(iii) Record the number of publications out of each of the registered research.

4. **Ethics and Empowerment Unit** shall work to strengthen ACU journal and future publishing endeavor, academic visibility, research impact and as well ethics. The unit will be involved in organizing workshops, briefings and seminars for scientific writing, to enable the ACU researchers to be a part of the scientific publishing community by increasing the numbers of quality ACU publications.

5. **Consulting Unit shall** look after the different aspects of the academic involvement in providing solutions to industry problems. The main focus shall be on technology transfer and business development on the basis of which ACU shall strive to be an entrepreneurial University. As a part of this endeavour the unit shall take care of the creation and functioning of research incubators to encourage budding and aspiring young entrepreneurs to grow individually and resulting a natural dissemination of that growth in the form of (i) Job Creation, (ii) Economic Enrichment, (iii) Rural up-liftment, Urbandevelopment, Nation Building, and (iv) ACU brand propagation at the national and globalarena. Those incubators in future shall work as a training grounds/place of apprentice for the ACU students. So, in totality this unit shall work as a catalyst for the transformation of ACU students into next generation of professionals in their respective fields with all in- built professionalism so as to cater to global requirements.

INCUBATION CELL AND ACTIVITIES

1. As part of the objectives, we have established **Adichunchanagiri Center for Entrepreneurs (ACE)**, an incubation cell to initiate entrepreneurial activities.
2. **Successfully incubated Arthanaya solutions Pvt limited an Incubate of ACE**
3. SACCP is recognized as a host institution for MSME.

8. (Xii) Center for Molecular Pharmaceutics and Advanced Therapeutics (CMPAT)

OBJECTIVES:

- To pursue research interests pertaining to pharmaceutics, therapeutics and aligning those with the interests of the constituent colleges of ACU by contributing and fostering collaborative research efforts, besides the national and international collaborators.

Core Collaborating institutions within ACU: AIMS, SACCP, BGSIT and ACN

Core Research Strength

- Solubility enhancement of BCS class I drugs and elucidation of the mechanism with the perspective of thermodynamics, solvodynamics, solute solvent interaction and the mechanism being validated by computational chemistry tools.
- Solid state micro structural analysis using powder X-ray diffraction and proton life time annihilation spectroscopy.
- Slid state surface thermodynamics.
- Carbon nanotube aided targeted drug delivery.
- Advanced ophthalmic drug delivery systems with environment sensitive polymers.
- Colloid chemistry: Thermodynamics and dispersion dynamics.
- Bio active bio inorganic supramolecular complex and their solution chemistry.
- Bio-medical devices and hybrid instruments for improved pharmaceutical manufacturing.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

Adichunchanagiri School of Faculty Empwerment and Professional Development was established in November 2020 with the following objectives.

1. Curriculum planning and Development
2. Enhance competence in imparting knowledge (T/L skills)
3. Improve knowledge and skills in different modes of assessment
4. Improve ability in communication (language, fluency and body language)
5. Facilitate coordination /collaboration/team work
6. Develop Faculty Soft Skills (Personality Development and Behaviour)
7. Encourge professional advancement through Research and Innovation activities
8. Sensitize teachers on ethical aspects of T/L/E and Research /Innovation activities
9. Develop Leadership , Governance and Management Skills
10. Encourage the faculty to think creatively and strive for excellence
11. Continuous Professional development through attending short term and long term academic and research programs – certificate /fellowship.

To achieve the above objective, Adichunchanagiri University has signed Memorandum of Understanding with Higher Education Skill Development and Research Center (HESDAR), Mysuru.

9. LIBRARY AND INFORMATION SCIENCE

Objectives

- To acquire both physical and virtual collections at all libraries of ACU and enhance the capability of services to meeting the demands of the curricular, instructional, and research programs of the academic community.
- To adopt the collection analysis system in the libraries while acquiring the content for the programs, considering the factors of growth of the collection, particularly in newer areas of inquiry.
- To ensure easy access to collections through the use of emerging integrated technology, so that all collections can be readily accessible.
- To integrate all ACU constituent libraries by acquiring unique software, tools and technologies to enhance the library operations and services for better utility.
- To establish a strong linkage with Government agencies such as INFLIBNET, National Digital Library of India, e-content platforms, National Library of Medicine (USA), and Open Learning Portals in the country and abroad.
- To support for conservation of knowledge created by the ACU and its Constituent Colleges for present and future uses of the learning community.
- To promote information literacy as an activity of the library in enhancing the skills of the stakeholders.

Major Initiatives under taken

- The newly extended building of the AIMS-Learning Resource Centre was inaugurated by Mr. Thawar Chand Gehlot, Hon'ble Governor of Karnataka on 15th September 2021. The total space of the building has increased from 2936 to 5057 sq. mtr. The State-of-the-art library facilities have been developed according to the library landscape. The AIMS-Learning Resource Centre has been named as "**Prajnana Bhavana**" from that day onwards.
- DSpace Digital Repository Software has been adopted for the conservation of knowledge created by the faculty and researchers of ACU Constituent Colleges and Research Centers for present and future uses.
- All ACU Libraries are using Koha software in an integrated environment. All Librarians were trained in the software. The in-out gate register is used for library check-in and check-out of the users, Cataloguing, OPAC, and other modules are used at all libraries.
- Signed MoU with LIS Academy, Bangalore for implementation of Technological applications at Adichunchanagiri University Constituent College libraries for technology-enabled solutions and services.
- Chief Librarian framed the syllabi for Ph D. coursework for the Library and Information Science subject. In addition, he is guiding and supervising the Ph D. research scholar at ACU in Library and Information Science subject.
- Research support service is one of the value-added services of the library. Librarians offered advisory and consultancy services to the researchers, particularly on research discovery, research tools, and techniques (bibliographical, analytical, paraphrasing, citation, visual, and plagiarism) required for their academic, and research pursuits.
- Mapping the research data being used in quality initiatives, ranking frameworks, accreditation, and other processes of an institution/university.
- Librarians have corrected the institutional and author(s) affiliation issues found in the databases such as Scopus, Web of Science and etc.
- The library has initiated the Research Management System in the university (https://acu.irins.org) for showcasing the research productivity of ACU. Faculty Profiles keep on updating on regular basis.
- The Chief Librarian compiled and published the Annual Research Compendium 2020-21 during the said period.
- Librarians have represented in several Academic, Administrative, and Research committees. They are participating in University Council/College Councils, Academic and Research Councils. Librarians are working for institutional quality initiatives such as IQAC, NBA, nirf, Ranking, and ISO 9001 – 2015.
- The AIMS-Learning Resource Centre instituted a "Best Library User Award" for the best outgoing MBBS student of the year. Dr. Nancy Malik and Dr. Prahadeesh Prabhu have won the Best User Award for the year 2021-22.

- ACU Libraries have conducted annual Events by the department. During the occasion, a few Webinars, workshops, and presentations were organized for the faculty and students.
  - "World Book and Copy Right Day" was celebrated on 23rd April, 2021
  - National Librarian's Day was observed on 12th August, 2021
  - National Library Week was celebrated from 14th To 20th November, 2021
- **Webinars / Training Programs / Orientation program / Sensitization Program organized.**

1. SRI ADICHUNCHANAGIRI MAHASAMSTHANA MATH

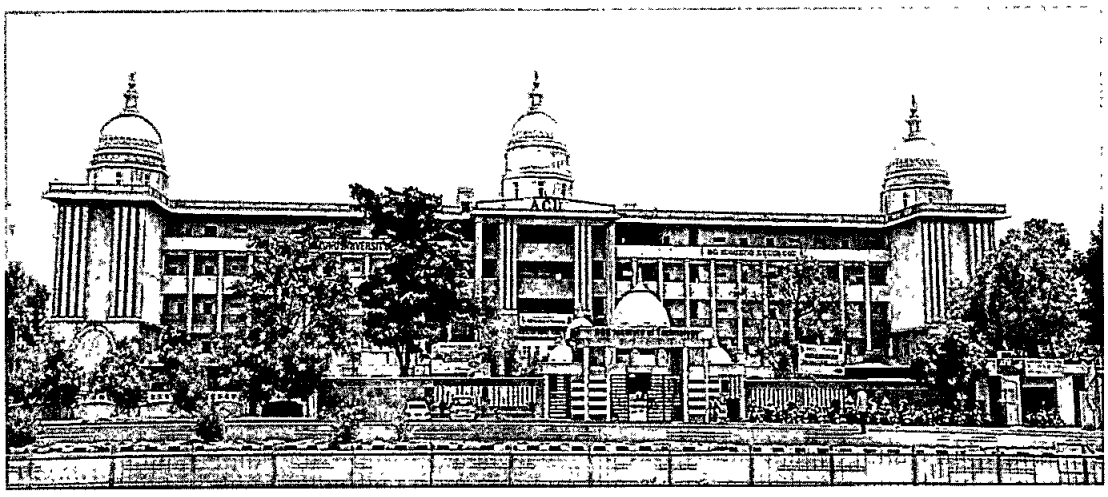

Adichunchanagiri Mahasamsthana Math is situated on a rocky hill at Sri Adichunchanagiri Kshetra, Nagamangala Taluk, Mandya District, Karnataka State, 110 Kms west of Bengaluru at an altitude of above 3,300 ft. The lush green woods and serenity of the lakes provide a sanctified atmosphere for spiritual aspirants to meditate and the Seers to internalize themselves. Amidst this serenity stands the Adichunchanagiri Mahasamsthana Math (https://goo.gl/maps/FXt5o6mT63kGAQir5) with Lord Gangadhareshwara as the presiding deity along with four incarnations of Lord Shiva viz., Lord Malleshwara, Lord Kattale Someshwara, Lord Gavi Siddeshwara, and Lord Chandramouleshwara in their ferocious forms for demolishing the Demons and the unrighteous. Lord Kalabhyraveshwara is worshipped by people of all sections of society across the country.

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional and philosophical foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolise courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Honourable Chancellor Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolises Global standards of education, with Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives liberty, power, pleasure and honour. Both science and spirituality enrich our knowledge leading us to the liberation from physical, mental and external bonds, while liberation from internal bonds is attained through ethics and religion. Hindu scriptures say: '***Savidya ya vimuktaye*** - that which liberates is knowledge'. Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty. Knowledge of Science is about doing while Knowledge of Spirituality is about being. It is basically a way of developing a holistic way of life — living a mature and balanced life, achieving the integration of personality.

Truth is the regime of both science and spirituality. Science is an objective knowledge while spirituality is a subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind system.

7(i). BGS INSTITUTE OF TECHNOLOGY

BGS Institute of Technology (BGSIT), B.G. Nagara was established in 2005 under the aegis of Sri Adichunchanagiri Shikshana Trust (R.). BGSIT has the approval of the All India Council for Technical Education (AICTE), New Delhi, an apex body of technical education in India. Government of Karnataka has also recognized this institute as one of the leading centers for technical education in Karnataka. The College is committed to the cause of producing tomorrow's engineers & working on today's pioneers. The institute emphasizes on the enhancement of skills among the students and ultimately prepares them to serve the Nation. The mission of this institution is to increase the number of quality engineers so that they can serve the society adequately.

The institution has excellent learning infrastructure, highly qualified teaching faculty and other common facilities for implementing effective Teaching, Learning and Evaluation processes. The college has a well-defined system for implementing the curriculum for each program. The dynamic and committed faculty ensures high standards of learning and embedding social and ethical values in students.

5.v. Student Progression

The Institutions'concern for students progression to higher studies and/or to employment is dealt with under this Key Aspect. Identify the reasons for poor attainment and plan and implement remedial measures. Sustainable good practices which effectively support the students facilitate optimal progression. Student Participation and Activities KEY ASPECTS institutional provisions facilitate vertical movement of students from one level of education to the next higher level or towards gainful employment.

- Monitor student progress.
- Promote continuous achievement.
- Make provisions for individual differences.
- Promote students assuming responsibility for their own learning and attendance.
- Provide effective, engaging instruction and remediation.
- Document instruction in, and student mastery of, the standards.
- Understanding student behavior and improving classroom interaction.

5.vi. Student Empowerment

1. Involve students in classroom curriculum planning
2. Give students an opportunity to make their own decisions about how to present their work
3. Encourage students to use Technology in the classroom with meaningful applications
4. Create guided assignments for students to do before teach the lesson in class
5. Give students a guided place to ask questions and discuss curriculum
6. Find out what students are passionate about and use those things to inspire their learning
7. Give students an opportunity to share exceptional work with their Peers
8. Enable students to self-assess their work.

5.vii. Student counseling

1. The Institute has an excellent mentoring system under which students of each class is divided into 3 batches of about 20 students and a teacher is assigned as the Mentor for each batch.
2. Mentors record the details of student's address, their parents, contact numbers, academic, co-curricular extra-curricular achievements.
3. The statement of marks and attendance of students will be sent to the parents after every internals. Mentors also interact with parents/guardians of the students as and when necessary.
4. An independent login is provided to every student in DHI for sharing the pertinent information like attendance, academic performance, feedback, etc.,

5. viii. Student Placement Activities

12 companies visited the campus and conducted recruitment drive, 89 students were selected by companies in the year 2021. Companies visited are : Q Spiders, NTT Data, TCS , Wipro , Infosys, Subex,Accenture, Mind tree, Mphasis, Cognizant,Tech Mahindra, Codilar Technologies .

7 (ii). ADICHUNCHANAGIRI INSTITUTE OF MEDICAL SCIENCES (AIMS)

Adichunchanagiri Institute of Medical Sciences (AIMS) was started in the year 1986 has been imparting education in Medical sciences (MBBS, MD/MS, Diploma courses). It is recognized by the Medical Council of India, General Medical Council, London, U.K. The College was earlier affiliated to the Rajiv Gandhi University of Health Sciences, Karnataka and now it is a Constituent College of Adichunchanagiri University.

Steps initiated to realize the Institution's vision

- Decentralized approach for effective workforce management and efficient decision making.
- Clearly defined service rules and job descriptions.
- Faculty Development Programs for curriculum design and delivery, training in e-learning resource preparation.
- Delivery of low-cost, comprehensive health care to patients.
- Nurturing research interest among students by conducting workshops on research methodology.
- Encouraging the culture of quality research by providing incentives to faculty.
- Assisting students in choosing their career path through workshops conducted from Career Guidance Cell.
- Well established system of obtaining and providing feedback to various stakeholders as appropriate.

based selection and hiring processes that result in recruitment of a talented and effective workforce. AIMS is committed to the principles of equal opportunity, non- discrimination and cultural diversity while recruiting the workforce. A proficient workforce of 37 was infused into the institution in the year 2020-21. About 40 faculty members have left the institution after attaining superannuation or resigned. Also 9 faculty members were promoted to next cadre. 81 faculty members were from other states. Two faculty members have Ph.D degree.

As on 31st march 2021, AIMS had a total workforce of 154 teaching faculty and 139 (113 permanent and 26 temporary) non teaching staff. Adichunchanagiri Hospital and Research Centre, teaching hospital of AIMS has a work force of 566 members.

1. Incentive schemes offered to teaching faculty and non-teaching staff

- Financial incentives are given based on the academic performance indicators for teaching faculty, which includes adoption of newer teaching-learning & assessment methods, skill acquisition through training, research publications and presentations among many other indicators.
- Concession in tuition fee is offered to children of both teaching and non-teaching faculty in Schools run by the Sri Adichunchanagiri Shikshana Trust (R).
- A concession is offered in treatment charges at Adichunchanagiri Hospital and Research Center for both teaching and non-teaching staff.
- Residential accommodation at a concessional rate is provided for both teaching and non-teaching staff.
- Group insurance and ESIC facilities are provided.

4. v. Student Progression

Sri Adichunchanagiri College of Pharmacy ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory. Progression of a student is reviewed and monitored by the following modes:

- Class attendance
- By conducting Internal assessment
- By Mock Examination
- Problem Based Learning (PBL)
- Mentor-Mentee programs
- Inter and Intra college level quiz
- Assignments
- Student Interaction in the class

Progression identifies poor academic performance and provides effective remedial programs to enhance their performance. Individual faculty are involved in motivating and encouraging students to acquire most recent skills and help for making profitable use of knowledge.

4.vi. Student Empowerment

Student Empowerment is any attitudinal, structural, and cultural activity, process or outcome where students of any age gain the ability, authority and agency to make decisions and implement changes in their own institutions, learning and education, and in the education of other people, including fellow students of any age and adults throughout education. There are countless ways this can happen as well as many potential outcomes, all of which feature learning, teaching and leadership. It's the idea of creating an environment where students want to learn rather than have to learn. This is that top level of engagement, where students are highly committed and highly focused.

4. vii. Student Counseling

Each faculty counselor was allotted with 15-20 students and they arranged minimum three counseling sessions in each semester i. e Monthly Counseling Session (Before Exam, After Announcement of Results). The faculty counsellor collect all the details pertaining to the students and keeps a record of attendance of all the courses of the counseling group and communicate to the parents (three times per semester) through SMS/alternative methods time to time. The report comprises of theory attendance, practical attendance and Internal Assessment marks. The counselors arrange meetings with parents whenever they found any issues such as the low attendance or poor performance in the examinations etc. While interacting with the students during the counseling session, their grievances were collected; suggestions were provided by the counselor regarding their grievances. Overall Student progress record of a student is depicted in ERP. Students were encouraged to express their views and suggestions for academic and other infrastructural improvements in the college. Head of the Departments takes necessary actions to implement their valid suggestions.

Other concerns that were discussed at the time of counseling were as follows:

1. Academic pressures (lack of concentration and motivation for studies, under achievement, backlogs, exam stress, unhealthy competition)
2. Loneliness and homesickness
3. Peer pressure
4. Procrastination
5. Low confidence and self-esteem etc.

7 (ix)ACU- CENTRE FOR RESEARCH AND INNOVATION

The Universities with well-established system and facilities for Research and Innovation (R&I) are generally receiving worldwide recognition. Moreover, the number of students seeking admission in Ph.D Programs is gradually increasing. The research system at Adichunchanagiri University is, however, building up. In view of this, the ACU has established state of the art research centre named as ACU-CRI.

7 (x). ADICHUNCHANAGIRI INSTIUTE FOR MOLECULAR MEDICINE (AIMM)

Adichunchanagiri Institute for Molecular Medicine (AIMM), an esteemed Research Institute of Adichunchanagiri University initiated with the visionary motive by Hon'ble Chancellor. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as Director, under the able guidance of Prof.K.N. Thimmaiah and Prof.K.S. Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery Program is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modifiers, cell cycle regulatory enzymes and proteasomes can be a great target which can be modulated by using these synthetic molecules with outstanding selectivity and potency.

Research: The research centre oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like Leishmaniasis and other bacterial infections.

7 (xiii) ADICHUNCHANAGIRI SCHOOL OF FACULTY EMPOWERMENT AND PROFESSIONAL DEVELOPMENT (ASFPD)

Adichunchanagiri School of Faculty Empwerment and Professional Development was established in November 2020 with the following objectives.

1. Curriculum planning and Development
2. Enhance competence in imparting knowledge (T/L skills)
3. Improve knowledge and skills in different modes of assessment
4. Improve ability in communication (language, fluency and body language)
5. Facilitate coordination /collaboration/team work
6. Develop Faculty Soft Skills (Personality Development and Behaviour)
7. Encourge professional advancement through Research and Innovation activities
8. Sensitize teachers on ethical aspects of T/L/E and Research /Innovation activities
9. Develop Leadership , Governance and Management Skills
10. Encourage the faculty to think creatively and strive for excellence
11. Continuous Professional development through attending short term and long term academic and research programs – certificate /fellowship.

To achieve the above objective, Adichunchanagiri University has signed Memorandum of Understanding with Higher Education Skill Development and Research Center (HESDAR), Mysore

Faculty Development programmes conducted during 2020-21.

8. Library and Information Science

The stakeholders of the ACU Library are the students, faculty and researchers of the six Constituent Colleges, two Schools and four Research Centres of Adichunchanagiri University namely:

1. Adichunchanagiri Institute of Medical Sciences
2. B G S Institute of Technology
3. Sri Adichunchanagiri College of Pharmacy
4. Adichunchanagiri College of Nursing
5. B G S College of Education, and
6. B G S First Grade College
7. Adichunchanagiri School of Natural Sciences
8. Adichunchanagiri School of Allied Health Sciences

Research Centres:

1. Centre for Research and Innovation of ACU (ACU-CRI)
2. Adichunchanagiri Institute of Molecular Medicine (AIMM)
3. Center for Molucular Pharmaceutics and Advanced Therapeutcs(CMPAT)
4. Center of Research Management & Industrial Linkage (CORML)

All the ACU Libraries have adopted the "Hybrid Model" - a combination of print and electronic resources comprising digital, audio, video, datasets, etc. All libraries are housing mainly domain-specific holdings besides cross-section collections and other documents of generalities.

All ACU Libraries have commonly adopted the AACR-2 Cataloguing system for locating and accessing documents. ACU Libraries are using Dewey Decimal Classification (DDC) scheme for shelving the documents, except AIMS-LRC which is using the National Library of Medicine Classification (NLM) System - a special classification system being developed by the National Library of Medicine, Bethesda, USA for shelf arrangement.

Vision

All Libraries of ACU are indispensable hubs of discovery, learning & creativity at Adichunchanagiri University.

Mission

- Achieving excellence by supporting the university mission by supplementing suitable learning resources, facilities and services to the patrons, both physically and virtually.
- The Adichunchanagiri University Libraries advance discovery and enrich the quality of life by connecting people with knowledge.
- Adopting innovative technologies to support the sharing of knowledge to enhance academic and research productivity.
- The ACU Libraries provide an inclusive learning environment that fosters collaboration among people of diverse backgrounds in support of the learnings of the community.

Objectives

- To acquire both physical and virtual collections at all libraries of ACU and enhance the capability of services to meeting the demands of the curricular, instructional, and research programs of the academic community.
- To adopt the collection analysis system in the libraries while acquiring the content for the programs, considering the factors of growth of the collection, particularly in newer areas of inquiry.
- To ensure easy access to collections through the use of emerging integrated technology, so that all collections can be readily accessible.
- To integrate all ACU constituent libraries by acquiring unique software, tools and technologies to enhance the library operations, and services for better utility.
- To establish a strong linkage with Government agencies such as INFLIBNET, National Digital Library, e-content platforms, National Library of Medicine (USA), and Open Learning Portals in the country and abroad.
- To support for conservation of knowledge created by the ACU and its Constituent Colleges for present and future uses of the learning community.
- To promote information literacy as an activity of the library in enhancing the skills of the stakeholders.

Services offered by the ACU Libraries

- Circulation of books/periodicals
- Physical and Virtual reference service
- Inter-Library Loan/Document delivery
- Current Awareness Services and SDI

- Audio-visual services
- Reprographic Services i.e., Photocopying service
- Scanning facility, subject to national & international copyright law
- Priced print service
- Orientations and training programs
- Extension services
- Press clippings
- Plagiarism provision: libraries are using URKUND/Turnitin tools to detect the plagiarized contents.
- Research support: Providing Research Discovery, Research portals tools/analytics, Research Advocacy and guidance.

Major Initiatives under taken during 2020-21

- Implementing of new technology applications at all ACU Constituent College Libraries.
- Migrating all ACU libraries data from earlier software to Koha-Library Management software for initiating across all libraries. Conversion of library data to MARC standard for interoperability and made access to the learning community.
- Under VGST Grant, the BGSIT Library had received a high-end Server called "Dell Server 2U Rack Model- R530 2 U server Intel® Xeon® and Techfocuz digital library software is a complete software/hardware solution infrastructure" for digitalizing the library content.
- Continuation of MoU with DELNET (Developing Library Network, New Delhi), which offers resource sharing, 'Inter-Library Loan services' and "Document Delivery services" over 1000 network institutions across the country.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

- Continuation of alliance with INFLIBNET (Information and Library Network, Gandhinagar), for discovering academic and research content. It also facilitates researchers for depositing their theses to the "Shodhganga - a Reservoir for Indian Theses".
- Signed an MoU with LIS Academy, Bangalore for implementation of Technological applications at Adichunchanagiri University and its Constituent Colleges libraries for technology-enabled solutions and services.
- Disseminated the web-based COVID-19 scholarly data /resources to the ACU learning community during the pandemic period.
- During the COVID-19 period, several domain-specific databases such as Springer Books, Thieme Publisher, Oxford Publisher, Karger, and National Digital Library, have offered the free trial remote access facility for the institutional stakeholders, the ACU libraries have used the opportunity meticulously during the period.
- The Biomedical publisher(s)/platforms have also offered free trial remote access facilities for Health Sciences Institutions. The ACU libraries have used such services. The platforms namely Wolter Kluwer (eBooks), LWW (eBooks), Thieme Publisher, Oxford Publisher, J-Gate: E-Resources & E-Journals (Biomedical Sciences), HS Talks (Videos), Incision Academy (Surgical Videos), American Academy of Paediatrics (eBooks), Cambridge University Press (eBooks), Jaypee Digital (eBooks), Clinical Key, Karger, McGraw Hill Professional (eBooks), Medicine Complete (eBooks) and EBSCO E-resources have provided the facility.
- Identified the sources of Rare Books and Manuscript repositories in India and abroad to comply with NAAC norms. These repositories have the most comprehensive record of human creativity and knowledge. The stakeholders can discover the rare materials from such portals/repositories namely:
  - National Digital Library of India (NDLI): https://ndl.iitkgp.ac.in/

- Librarians have taken part in compiling and publishing the first ACU Research Compendium 2018-19 and 2019-20. The Research Compendium comprises the faculty published articles in Journals, Conferences, and Seminars papers and Patents registered and awarded during said two years.
- The library has initiated the Research Management System in the university (https://acu.irins.org) for showcasing the research productivity of ACU. Chief Librarian has oriented the new ACU faculty and researchers for creating the Academic Identities, such as ORCID ID, Google Scholar ID, Researchers ID, Scopus ID, Academic Microsoft IDs are playing a major role in academic and research pursuits. The Academic IDs have been used in https://acu.irins.org for creating new faculty profiles. The https://acu.irins.org will automatically Pop-up the Research metrics such as Citations and h-index, Altmetrics, Co-author networks data from Scopus and Google Scholar, provided the researchers given their correct Academic IDs.
- The ACU faculty and researchers have been advised to provide their academic and research achievements to import their IRINS profiles such as qualification and experience, the field of expertise, number of Researchers guided, number of Honors and Awards received, membership to Professional Bodies, and Patents registered and awarded to enable them to make visible to the scholarly community.
- Libraries have provided plagiarism facility for researchers. The URKUND and Turnitin tool have been used.

- Library staff have guided the Medical UG and PG students while submitting their Anti-Ragging Affidavits/Declarations during their admission periods.
- Libraries have conducted annual Events such as "World Book and Copy Right Day on 23rd April 2020, National Librarian's Day on 12th August 2020, and National Library Week from 14th-20th November 2020 at ACU Libraries.
- Now-a-days libraries are providing many value added services to its users. Research support services is one of such value added activities which help academic institutions to enhance their research productivity. Chief Librarian offered advisory and consultancy services to the researchers particularly on research discovery, tools, and techniques, analytics and datasets required for their academic, and research pursuits. The researchers have been advised to follow the research ethics while citing or paraphrasing the contents.
- The libraries and librarians are the research partners of an institution(s). The Chief Librarian guided the researchers in mapping the research productivity of institutions/individuals. Mapping the research data (h-index, citations count, quartiles, etc.) from the data sources (Web of Science, Scopus, PubMed) is an activity of the library. The data is being used in quality initiatives, ranking frameworks, accreditation, and other processes of an institution/university.
- Librarians are represented in several Academic, Administrative, and Research committees. They are participating in University Council/College Councils, Academic/Research Councils. Librarians are working for institutional quality initiatives such as IQAC, NBA, NIRF, Ranking, and ISO 9001 – 2015.
- The AIMS-Learning Resource Centre instituted a "Best Library User Award" for the best MBBS outgoing student. Dr. Shreyas Shastry, C S won the "Best Library User Award" for the year 2020-21.

- **Webinars/Training Programs/Orientation program / Sensitization Program conducted during 2020-21.**

"Our Guiding Force"

Poojya Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji
Honourable Chancellor

A University is essentially a community of students and teachers. The two have to work together for the one single purpose of advancing knowledge and disseminating it. If they are at any time distracted from this straight path of pursuing truth for its own sake and get led away, there will be jeopardy to the community of the University. We have no doubt; here the teachers and the students are working together.

Education is a process which contributes in building socio-economic infrastructure of the nation. The efforts taken to provide education to the masses, has made India emerge as an economic power. We feel proud to act as contributors of this social transformation. We believe that education is an effective medium of social transformation. We get encouragement, looking at bright and successful careers of our millions of students, which subsequently benefit the society.

In this University the three things - sciences, humanities and religion work together as parts of one whole. Human knowledge cannot be divided against itself. Everything that you do is both secular and sacred. Everything that you do is done with the background of eternity. You cannot do a thing unless you have that sense that we are all humble creatures in this world, asked to carry out our particular avocations or activities. The world is moving. It is 10,000 years ago that civilization started and since then we have marched forward from one stage to another. The process in which we are now engaged is the process of attaining unification of the whole world. Whatever studies we have, whatever learning we possess, whatever skill we acquire, we must take a pledge that we will use them for the betterment of humanity, for the betterment of the human race, for bringing the goal of one world nearer. It is that kind of pledge that every student should take.

We are pleased to know that Adichunchanagiri University is bringing out its second annual report.

We beseech the Divine blessings of Lord Kalabhyraveshwara Swamy and Poojya Guruji. May God bless you all.

FOREWORD

Honourable Vice Chancellor

Greetings from Adichunchanagiri University, B.G. Nagara

A rural based Unitary Campus, Multi-Disciplinary Adichunchanagiri University has made considerable progress and development in the areas of Engineering & Technology, Health Sciences, Management & Technology, Humanities & Social Sciences, Natural Sciences and Allied Health Sciences in the last two years under the visionary and dynamic leadership of Parama Poojya Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji, The Hon'ble Chancellor of the University. The University was able to augment the infrastructure, learning resources and Human Resources to enhance the quality of Teaching-Learning and Evaluation. Efforts were made to build Research capacity with the recruitment of scientists and equipment upgrade. There is a great opportunity for the University to implement some of the recommendations of NEP-2020 to make it truly a multi/transdisciplinary University imparting holistic Higher Education with the Social Accountability of Relevance, Excellence, Equity and Cost-effectiveness to impact the society and to make it a better place to live. I thank all the Authorities, Officers, Employees and Students for their unstinted support in making the University a Temple of Learning and Service to Society.

MESSAGE

Registrar

In any organization leadership plays a vital role in addition to competent and efficient human resource. Logical thinking, ability to face the challenges and quick decision making are important factors in the development of an institution. Education should aim at the multifaceted development of a human being and it should not be confined to imparting or acquisition of just knowledge.

"When aims are high and action is fast, God rewards the people with success and glory"

Adichunchanagiri University is bringing out the annual report 2019-20 comprising curricular, co-curricular and extracurricular activities conducted during the same period. It also contains the achievements, rewards and awards of the faculty, staff and students of the university in addition to various developmental activities and financial details.

In spite of pandemic COVID -19 situations our students and staff taken keen interest in fulfilling the academic and administrative tasks of day to day regularly.

I am indeed grateful to the Hon'ble Chancellor, Vice Chancellor and University Officers for their invaluable guidance and support in smooth conduction of the various activities of the university.

I express my heartfelt thanks to the Editorial Board and the staff for their effort in bringing out this annual report 2019-20.

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional and philosophical foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolize courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Honourable Chancellor Śri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolizes Global standards of education, with Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives liberty, power, pleasure and honor. Both science and spirituality enrich our knowledge leading us to the liberation from physical, mental and external bonds, while liberation from internal bonds is attained through ethics and religion. Hindu scriptures say: '*Savidya ya vimuktaye* - that which liberates is knowledge'. Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty. Knowledge of Science is about doing while Knowledge of Spirituality is about being. It is basically a way of developing a holistic way of life – living a mature and balanced life, achieving the integration of personality.

Truth is the regime of both science and spirituality. Science is an objective knowledge while spirituality is a subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind system.

There is a system of compulsory internal and external valuations of theory papers in all courses. If the difference between the two valuations is 15% and above, there will be a third valuation. In such cases the average of the two marks, which would be closest to the median among the three valuations shall be awarded to the student.

For Medical Post graduation courses, each theory paper shall be valued by four examiners (both internal and external) and average marks of the four valuations are considered for that paper for declaration of results. If the difference between highest and lowest marks among the four valuations exceeds 15% and above , the paper shall be subjected to fifth valuation. In such cases, average of the nearest to the median marks among the five valuations shall be considered for declaring the results.

5.8. University Examination Results

Examinations were conducted for the Students of M.B.B.S, B.E, M.Tech, M.B.A, B.Pharm, Pharm.D, M.Pharm; B.Sc Nursing , P.B. B.Sc Nursing, B.Com and B.Ed students and the percentage of pass in the academic year 2019-20 are as below:

7.(i) BGS INSTITUTE OF TECHNOLOGY

BGS Institute of Technology (BGSIT), BG Nagara was established in 2005 under the aegis of Sri Adichunchanagiri Shikshana Trust (R.). BGSIT has the approval of the All India Council for Technical Education (AICTE), New Delhi, an apex body of technical education in India. Government of Karnataka has also recognized this institute as one of the leading centers for technical education in Karnataka. The College is committed to the cause of producing tomorrow's engineers & working on today's pioneers. The institute emphasizes on the enhancement of skills among the students and ultimately prepares them to serve the nation. The mission of this institution is to increase the number of quality engineers so that they can serve the society adequately.

The institution has excellent learning infrastructure, highly qualified faculty and other common facilities for implementing effective Teaching, Learning and Evaluation processes. The college has a well-defined system for implementing the curriculum for each program. The dynamic and committed faculty ensures high standards of learning and embedding social and ethical values in students.

Vision

BGSIT is committed to the cause of creating tomorrow's engineers by providing quality education inculcating ethical values.

Mission

- Imparting quality technical education by nurturing a conducive learning environment.
- Offering professional training to meet industry requirements.
- Providing education with a moral - cultural base and spiritual touch.

4. v. Student Progression

The Institutions 'concern for students' progression to higher studies and/or to employment is dealt seriously. Identify the reasons for poor attainment and plan and implement remedial measures. Sustainable good practices which effectively support the students facilitate optimal progression. Student Participation and Activities KEY ASPECTS institutional provisions facilitate vertical movement of students from one level of education to the next higher level or towards gainful employment.

- Monitor student progress.
- Promote continuous achievement.
- Make provisions for individual differences.
- Promote students assuming responsibility for their own learning and attendance.
- Provide effective, engaging instruction and remediation.
- Document instruction in, and student mastery of, the standards.
- Understanding student behavior and improving classroom interaction.

4. vi. Student Empowerment

1. Involve students in classroom curriculum planning
2. Give students an opportunity to make their own decisions about how to present their work
3. Encourage students to use Technology in the classroom with meaningful applications
4. Create guided assignments for students to do before teach the lesson in class
5. Give students a guided place to ask questions and discuss curriculum
6. Find out what students are passionate about and use those things to inspire their learning
7. Give students an opportunity to share exceptional work with their Peers
8. Enable students to self-assess their work.

4. vii. Student counseling

1. The Institute has an excellent mentoring system under which each class is divided into 3 batches of about 20 students and a teacher is assigned as the Mentor for each batch.
2. Mentors record the details of student's address, their parents details, contact numbers, academic, co-curricular extra-curricular achievements.
3. The statement of marks and attendance of students will be sent to the parents after every internals. Mentors also interact with parents/guardians of the students as and when necessary.
4. An independent login is provided to every student in DHI for sharing the pertinent information like attendance, academic performance, feedback, etc.,

7 (ii). ADICHUNCHANAGIRI INSTITUTE OF MEDICAL SCIENCES (AIMS)

Adichunchanagiri Institute of Medical Sciences (AIMS) was started in the year 1986 under the stewardship of Paramapoojya Jagadguru Padmabhushana Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji, who was also the President of the Sri Adichunchanagiri Shikshana Trust (R). Since 1986, AIMS has been imparting education in Medical sciences (MBBS, MD/MS, Diploma courses). It is recognized by the Medical Council of India, General Medical Council, London, UK. The College was earlier affiliated to the Rajiv Gandhi University of Health Sciences, Karnataka and now it is a Constituent College of Adichunchanagiri University. The University is currently being well guided by the Hon'ble Chancellor.

VISION

The institution will seek to be a centre of excellence with emphasis on socially meaningful Medical Education, Research and Healthcare.

MISSION

1. To provide outstanding educational experiences to the students through competent facilitators and supportive infrastructure that transforms today's students to tomorrow's confident, socially responsible health care providers.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

2. Strives to provide comprehensive, culturally sensitive, cost effective, community-oriented quality health care services to the society.
3. To facilitate community relevant quality research studies and research training Programs to the students and faculty by providing stimulating environment that nurtures original thinking.
4. To inculcate value system and ethical principles of righteousness, honesty, integrity and dignity among students, staff and other stakeholders enabling them to serve with social justice and equity.
5. To ensure innovative approaches and entrepreneurial skill developments, promoting creative thinking among the learners, to foster regional, national and global competencies.
6. Promoting cutting-edge technology enabled learning by effective use of ICT in all teaching learning methods.

The steps initiated to realize the Institution's vision

- Decentralized approach for effective workforce management and efficient decision making.
- Clearly defined service rules and job descriptions.
- Faculty development Programs for curriculum design, and delivery, training in e-learning resource preparation.
- Delivery of low-cost , comprehensive health care to patients.
- Nurturing research interest among students by conducting workshops on research methodology.
- Encouraging the culture of quality research by providing incentives to faculty.
- Assisting students in choosing their career path through workshops conducted from Career Guidance Cell.
- Well established system of obtaining and providing feedback to various stakeholders as appropriate.

4.iv. Student Progression

The students of the MBBS batch of the year 2014 graduated in March 2019. Forty percent of students have secured Post Graduate seats during April 2019 and March 2020. The students of this batch are reported to be pursuing higher studies in the medical field in various areas. The majority of the alumni (>90%) appeared for the Postgraduate (PG) entrance examinations such as, National Eligibility-cum-Entrance Test (NEET) and few of them also appeared in UPSC, USMLE

examinations. Few students qualified for post graduation in medical institutions and few have joined the Government services. The rest of the graduates have continued their preparation for PG entrance examinations and government services to be attended in the coming year.

4.v. Student Empowerment

The institution has initiated various educational programs and committees to empower and support undergraduate and postgraduate students in 2019-20. Language development, personality development, and communication skill development programs were conducted. Anti-ragging and sexual harassment prevention committees conducted regular meetings and ensured their presence to help the students. AIMS student council looks after student affairs directly.

4.vi. Student Counseling

The undergraduates were counseled on a regular basis under the mentor-ward system. Like previous years, students were allotted mentors in the respective subjects where each mentor monitored their mentees' attendance, performance in the tests, and internal assessments. Students counseling is held fortnightly regarding problems related to studies and advised remedial measures.

7. (iii)SRI ADICHUNCHANAGIRI COLLEGE OF PHARMACY (SACCP)

SACCP was established in the year 1992 with the objective of providing excellence in Pharmaceutical Education and Research and is approved by the All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI), New Delhi. The institute is accredited by National Board of Accreditation (NBA).

The institute is equipped with sophisticated instruments and equipments like Lyophilizer, PCR, Gel Electrophoresis, Microwave Synthesizer, FTIR, HPLC, Gas Chromatography, Inverted Microscope with Fluorescence attachment and pilot scale equipments like Freeze Drier, Mini Spray Drier, High Pressure Homogenizer, , etc., which enables the students to acquire hands on training for advanced learning.

Conferences, seminars, symposiums, workshops, industrial visits, industrial trainings and guest lectures are regular features that provide knowledge to the students and also groom them to develop leadership qualities. Co-curricular activities, sports and games add to the overall development of the students

4. v. Student Progression

Sri Adichunchanagiri College of Pharmacy ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory. Progression of a student is reviewed and monitored by the following modes:

- Class attendance
- By conducting Internal assessment
- By Mock Examination
- Problem Based Learning (PBL)
- Mentor-Mentee programs
- Inter and Intra college level quiz
- Assignments
- Student Interaction in the class

Progression identifies poor academic performance and provides effective remedial programs to enhance their performance. Individual faculty are involved in motivating and encouraging students to acquire most recent skills and help for making profitable use of knowledge.

4.vi. Student Empowerment

Student Empowerment is any attitudinal, structural, and cultural activity, process or outcome where students of any age gain the ability, authority and agency to make decisions and implement changes in their own institutions, learning and education, and in the education of other people, including fellow students of any age and adults throughout education. There are countless ways this can happen as well as many potential outcomes, all of which feature learning, teaching and leadership. It's the idea of creating an environment where students want to learn rather than have to learn. This is that top level of engagement, where students are highly committed and highly focused.

4. vii. Student Counseling

Purpose of Counseling was to:

- Understand students learning ability in academics.
- Assist student work out a plan for solving their difficulties.
- Know their interests, strengths, weakness and opportunities.
- Encourage special talents and nurture them to develop.

Students Counseling

Each faculty counselor was allotted with 15-20 students and they arranged minimum three counseling sessions in each semester i. e Monthly Counseling Session (Before Exam, After Announcement of Results). The faculty counsellor collect all the details pertaining to the students and keeps a record of attendance of all the courses of the counseling group and communicate to the parents (three times per semester) through SMS/alternative methods time to time. The report comprises of theory attendance, practical attendance and Internal Assessment marks. The counselors arrange meetings with parents whenever they found any issues such as the low attendance or poor performance in the examinations etc. While interacting with the students during the counseling session, their grievances were collected; suggestions were provided by the counselor regarding their grievances. Overall Student progress record of a student is depicted in ERP. Students were encouraged to express their views and suggestions for academic and other infrastructural improvements in the college. Head of the Departments takes necessary actions to implement their valid suggestions.

Other concerns that were discussed at the time of counseling were as follows:

1. Academic pressures (lack of concentration and motivation for studies, under achievement, backlogs, exam stress, unhealthy competition)
2. Loneliness and homesickness
3. Peer pressure
4. Procrastination
5. Low confidence and self-esteem etc.

To encourage students for participation in various competitions to enrich personality and building of self confidence in students, Sri Adichunchanagiri College of Pharmacy conducts regularly cultural & sports activities. Social responsibility is the part of the institute and hence to develop social responsibilities, institute has conducted NSS activities, particularly at a local and regional level. An organization's internal and external practices can influence their employees, customers, partners and environment in a positive manner.

Alumni network has a real life benefit for current students. This enhances the students' experience and gives them competitive edge in today's tough job market. . **Alumni** can help students get placed at their respective organizations. Hence, institute has Alumni Association.

8. College co-curricular activities during 2019-2020

a) **Cultural:** Cultural activities Like Dance, Singing, Speech, Skits, Drama and Arts are conducted to the students are conducted during the celebration of National festivals and other Special days. Annual cultural competitions are conducted and prizes are given. Our students have participated in the different inter college, University cultural competitions. All the students and staff members have participated actively in Janapada Mela organized by Sri Adichunchanagiri Mahasamsthana Math, Sri Adichunchanagiri

b) **Sports:** Sports activities like Kho-Kho, Kabbadi, Volleyball, Throwball, Shuttle Badminton, are conducted to the students in the allotted period of college time table. Annual sports competitions are conducted. Our students participated in the ACU Cricket Cup organized Adichunchanagiri College of Nursing, BG Nagara.

c) **NSS:** Under the banner of NSS Unit in the college many activities were conducted with the objectives of Developing, Guiding and Enhancing the students mind towards the National Development and conducted the following activities.

d) **Alumni:** To ensure quality Teacher Education Program, BGS College of Education was started from the academic year 2007-08. To foster a spirit of loyalty and promoting general welfare our college established 'BGSCE Alumni Association' on 25.09.2013. From the date of establishment the association is very active and conducted so many Programs. The college is affiliated to Adichunchanagiri University from the year 2018-19. As a constituent college Alumni Association was restructured as per the direction of the ACU.

The process of alumni association activities for the year 2019-20 started with the preliminary meeting which was held on 19th May 2019. ACU conducted university level Alumni Meet on 25.01.2020 and about 86 alumni participated in the meet. On the same day a meeting was conducted in the college for BGSCE Alumni.

Dr.A.T. Shivaramu, Principal and Sri A.H. Gopal, alumni coordinator attended the online demonstration on use of software in maintaining alumni records organized by ACU on 22.11.2019.

Sixty six student Teachers have registered to BGSCE Alumni Association in the year 2019-20. 61 books were donated to the college library by the alumni.

Special lectures were conducted from BGSCE Alumni on the following Topics

- Writing diary - Personal and Academic by Sri Y.D. Chethankumar, Alumni – 17.02.2020
- Career option after Teacher Training by Smt. Bhargavi Vinod, Alumni – 05.03.2020
- Demonstration classes on Teaching Prose Lesson by R. Ganesh, Alumni – 06.06.2019
- Demonstration classes on Teaching Prose Lesson by Azar Tabish, Alumni – 07.06.2019

7.(vi) BGS FIRST GRADE COLLEGE (BGSFGC)

BGS First Grade College, a Constituent college of Adichunchanagiri University at BG Nagara , was established in 2016 under Sri Adichunchanagiri Shikshana Trust ®. The institution is offering Bachelor of Commerce (B. Com) with the prime aim of providing quality Commerce and Management education at the Under Graduate level. The college is situated on BGSIT campus on Bengaluru -Mangaluru (NH-75). The Institution is recognized by Government of Karnataka

Vision

Committed to the cause of producing skilled and knowledgeable Graduates in the areas of Commerce and Management to face the future challenges confidently and successfully.

Mission

- Achieving excellence providing quality education.
- Providing training facilities for students which enhance leadership and Managerial skills.
- Enabling the students to meet the requirements of corporate sector.

The students of the B.Com batch of the year 2016 graduated in May 2019. Twenty five percent of our students have secured postgraduate seat. The students of this batch are reported to be pursuing in the MBA and M.Com. Majority of our students got placed in various companies and started their profession in corporate sector. The rest of the graduates are preparing for SSC, IBPS and other competitive exams.

4.v. Students Empowerment

BGS First Grade College conducted 20 Hours Advance MS Excel Training Program for our students with the collaboration to KRACK IN. With the support of our faculty member our institution organized special lecture programs for our students to enhance their skills and knowledge. We have given an opportunity to our students to showcase their talent through SEED platform. We are providing students an opportunity to know about the working culture at industries by arranging educational tour. Anti – ragging and sexual harassment prevention committees conducted regular meeting and ensured their presence to help the students

(viii) ADICHUNCHANAGIRI INSTIUT E FOR MOLECULAR MEDICINE

Adichunchanagiri Institute for Molecular Medicine (AIMM), an esteemed Research Institute of Adichunchanagiri University initiated with the visionary motive by Hon'ble Chancellor. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as a Director, under the able guidance of Prof.K.N. Thimmaiah and Prof.K.S. Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery Program is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modifiers, cell cycle regulatory enzymes and proteasomes can be a great target which can be modulated by using these synthetic molecules with outstanding selectivity and potency.

Research: The research centre oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like Leishmaniasis and other bacterial infections.

The above scientific studies will be achieved in collaboration with the pioneer researchers Prof. Peter J. Houghton from Greehey Children's Cancer Research Institute, USA and Prof. Marry-Ann Bjoronsti from University of Alabama, USA.

Vision

A comprehensive understanding of the role of new therapeutic small molecules to exhilarate the Adichunchanagiri University's commitment towards the mitigation of the risk factors associated with cancer and disease progression to serve the mankind.

Mission

- A multi-disciplinary approach to develop new therapeutic small molecules and understanding their application potential in cancer mitigation.
- Unveiling molecular mechanisms involved in oncogenic pathways in human cancer.
- Initiate University – Industry linkage towards drug designing and targeted drug delivery.

ACU- CENTRE FOR RESEARCH AND INNOVATION

The Universities with well-established system and facilities for Research and Innovation (R&I) are generally receiving worldwide recognition. Moreover, the number of students seeking admission in Ph.D Programs is gradually increasing. The research system at Adichunchanagiri University is, however, building up. In view of this, the ACU has established state of the art research centre named as ACU-CRI.

Vision

Creating a global centre of excellence enabling stellar research encompassing Science, Technology, Engineering and Medicine to make novel discoveries useful to mankind.

Mission

- To innovate, create, discover and advance knowledge for the benefit of society, public health and economic prosperity.
- Fostering a dynamic, multidisciplinary research and development solutions in Science, Technology, Engineering and Medicine.
- To disseminate the findings of research and to propel future generation researchers for an intellectually challenging diverse environment.
- Actively promote and preserve the values and ethics in education, health care and research.
- To engage and facilitate high quality, collaborative research studies with industries and academia around the globe to strengthen thrust areas of research in Adichunchanagiri University.

8. Faculty

The main faculties of Adichunchanagiri University are

a. Engineering and Technology including Civil, Architecture, Mechanical, Automobile, Electrical, Electronics and Communication, Computer Science and Engineering, Information Technology, Design and Printing Technology including 3-D, Environmental Engineering, Bio-Technology, Space Technology, Nano-materials and Technology and any other emerging areas including interdisciplinary etc.

b. Health Sciences including Medical, Dental, Ayurveda, Homeopathy, Naturopathy, Pharma, Nursing and any other emerging areas including interdisciplinary etc.

c. Management and Technology including Business Management, Tourism Management, Hotel Management, Hospitality Management, Hospital Management, Disaster Management, Risk Management and any other emerging areas of study including inter-disciplinary areas etc.

d. Natural Sciences including Physics, Electronics, Mathematics, Computer Science, Chemical and Environmental Sciences, Biological Sciences, Earth Sciences, Space Sciences, Nano Science and Nano-Materials and any other emerging area of study including inter-disciplinary areas etc.

e. Humanities and Social Sciences including History, Kannada, Economics, Political Science, Journalism, Tourism, Law, Philosophy, Puranas and Pravachanas, Music, Art, Fashion Sanskrit, English, other Indian and Foreign Languages and any other emerging areas of study including interdisciplinary areas etc.

f. Nursing and Allied Health Sciences including Medicaol Surgical Nursing, OBG Nursing, Child Health Nursing, Community Health Nursing, Mental Health Nursing.

9. ACU Library and Information Science

The stakeholders of the library are the six Constituent Colleges and three Research Centres of Adichunchanagiri University namely:

1. Adichunchanagiri Institute of Medical Sciences
2. B G S Institute of Technology
3. Sri Adichunchanagiri College of Pharmacy
4. Adichunchanagiri College of Nursing
5. B G S College of Education, and
6. B G S First Grade College

Research Centres:

1. Centre for Research and Innovations of ACU (ACU-CRI)
2. Adichunchanagiri Institute of Molecular Medicine (AIMM)
3. CMPAT in SACCP

All ACU Libraries have adopted the "Hybrid Model" (a combination of print and electronic resources).

All ACU libraries are commonly adopted the AACR-2 Cataloguing system for locating the documents. For classification, two types of Classification System are being adopted for shelving the documents, the AIMS LRC uses the National Library of Medicine Classification (NLM) System followed by Dewey Decimal Classification (DDC) schemes by rest of all libraries.

Vision

All Libraries of ACU are the indispensable hub of discovery, learning & creativity at Adichunchanagiri University.

Mission

- Achieving excellence by supporting the university mission by supplementing suitable learning resources, facilities and services to the patrons, both physically and virtually.
- The Adichunchanagiri University Libraries advances discovery and enriches the quality of life by connecting people with knowledge.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

- Adopting innovative technologies to support the sharing of knowledge to enhance academic and research productivity.
- The ACU Libraries provide an inclusive learning environment that fosters collaboration among people of diverse backgrounds in support of the learnings of the community.

Objectives

To acquire both physical and virtual collections at all libraries of ACU and enhance the capability of services to meet the demands of the curricular, instructional, and research programs of the academic community.

- To adopt the collection analyses system in the libraries while acquiring the content for the programs, considering the factors of growth of the collection, particularly in newer areas of inquiry.
- To ensure easy access to collections through the use of emerging integrated technology so that all collections can be readily accessible.
- To integrate all ACU constituent libraries by acquiring unique software, tools and technologies to enhance the library operations, and services for better utility.
- To establish a strong linkage with Government agencies such as INFLIBNET, National Digital Library, *e*-content platforms, National Library of Medicine (USA), and Open Learning Portals in the country and abroad.
- To support for conservation of knowledge created by the ACU and its Constituent Colleges for present and future uses of the learning community.
- To promote information literacy as an activity of the library in enhancing the skills of the stakeholders.

Services offered by the ACU Libraries

- Circulation of books/periodicals
- Physical and Virtual reference service
- Inter-Library Loan / Document delivery
- Current Awareness Services and SDI
- Computer Lab for searching / browsing
- E-Library services
- Online Public Access Library Catalogue for searching
- Audio-visual services

- Reprographic Services, i.e., Photocopying service
- Scanning facility, subject to national & international copyright law
- Priced print service
- Orientations and training programs
- Extension services
- Press clippings
- Plagiarism provision- URKUND
- Research support: Research tools, Research Guide

Major Initiatives under taken during 2019-20

1. Implementation of the automation system in all ACU Constituent College Libraries.
2. Fixed the ACU institutional affiliation issues with the SCOPUS database.
3. Made an MoU with DELNET (Developing Library Network, New Delhi), which offers resource sharing, 'Inter-Library Loan services' (a key feature of the DELNET), and "Document Delivery services" over 1000 network institutions across the country.
4. Undergo MoU with INFLIBNET (Information and Library Network, Gandhinagar), for depositing the theses in "Shodhganga – a Reservoir for Indian Theses.
5. Oriented the ACU faculty on creating the Academic Identities, such as ORCID ID, Google Scholar ID, Researchers ID, Scopus ID, Academic Microsoft ID's which play a major role in the academic and research pursuits. And these ID's were integrated with ACU IRINS portal.
6. Established the IRINS Research Management Portal at ACU, and created the instances for all the Colleges and Research Centres in the system, the concerned college faculty profile data have been updated in the system.
7. Initiated the Learning contents and tools provided by the Ministry of Higher education, UGC, INFLIBNET and other academic bodies at ACU level.
8. Several e-Learning platforms such as National Digital Library, MOOCs, and important databases have been introduced for the patrons.
9. Conducted the Webinars, Orientation Programs, and Training Workshops for the users in addition to organization of Library events such as "World Book and

Copy Right Day" on 23rd April, National Librarian Day on 12th August, and National Library Week during 14 - 20 November every year at ACU institutions.

10. Library plays a role in mapping the research productivity and metrics (h-index, citations counts, etc.) of an institution/authors being published in citation databases like Web of Science, Scopus, PubMed for utilizing the research data in quality initiatives, accreditation, ranking and other processes of an institutions.
11. Library encourages researchers to publish their research articles in high impact journals being indexed in SCOPUS, Web of Science, UGC CARE and PubMed, for getting better citations and articles impact.
12. Libraries offer research advisory and consultancy services on research content and datasets, research tools, and their benefits for the researchers. The researchers are advised not to indulge any research misconduct: fabrication, falsification, and plagiarism while publishing the content.
13. Developed the Syllabus for the P G Diploma in IT in Library and Information Science.

12. FINANCIAL STATEMENT

hva | HARISH VASANTH & ASSOCIATES CHARTERED ACCOUNTANTS | No.218, J.P Royale, 8th Floor (501), Sampige Road, Malleshwaram, Bengaluru - 560 003

Independent Auditor's Report

To the Board of Governors of Adichunchanagiri University (ACU), B.G Nagar, Mandya.

We have audited the accompanying financial statements of Adichunchanagiri University (ACU), which comprise the Balance Sheet as at March 31, 2020 and the Statement of Income and Expenditure Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

Opinion:
In our opinion, the accompanying financial statements give a true and fair view of the financial position of the University as at March 31, 2020, and of its financial performance for the year then ended.

Basis of opinion
We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the University in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with Governance for the Financial Statements:
Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and results of operations of the University in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the finapcial statiments that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Signed By:CN=DR C K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

In preparing the financial statements, management is responsible for assessing the University's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the University or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the University's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

"Our Guiding Force"

Poojya Sri Sri Sri. Dr. Nirmalanandanatha Mahaswamiji
Hon'ble Chancellor

Education in a University is the seat of learning where future leaders are produced. University plays a vital role in the development of the nation and the world at large. The basic object of higher education is for Self-reliance, investment for Future development and Catalyst for Socio-economic change in the Society.

Man feels proud that he has mastered many branches of knowledge and studied a number of texts. But he does not try to understand the essence of education. Nowadays, learning is limited only to physical and worldly aspects and moral, ethical, spiritual aspects are left out. Furthermore, some say knowledge is the most valuable acquisition, but character is more valuable than knowledge. Sacrifice, love, compassion and forbearance are the sterling human qualities that one should foster. Our University is striving hard to inculcate the high standards of conduct, behavior and the integrity of the personality in the individuals.

It is important that the higher education system increases its relevance to the society in which it functions. One of the major goals of the university education system is to multiply the knowledge, skills and various aspects of human potential in the country. We wish that the university realizes its inherent potential for the constructive purposes in the nation building process. Multiplication of skillsets though excellent education contributes to producing excellence in research, teaching and application.

We are pleased to know that Adichunchanagiri University is bringing out its first annual report. We beseech the Divine blessings of Lord Kalabyraveshwara and Paramapoojya Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji. May God bless you all.

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolise courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Chancellor Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolises Global standards of education, with Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives power, pleasure and honour. Both science and spirituality enrich our knowledge leading us to liberation from physical, mental and external bonds, while liberation from internal bonds is attained through ethics and religion. Hindu scriptures say: 'Savidya ya vimuktaye; that which liberates is knowledge.' Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty. Knowledge of Science is about doing while Knowledge of Spirituality is about being. It is basically a way of developing a holistic way of life – living a matureand balanced life,achieving the integration of personality.

Truth is the regime of both science and spirituality. Science is objective knowledge while spirituality is subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind complex.

5.5 Teaching, Learning and Evaluation

Innovative methods of teaching and learning were introduced to enhance the quality of education.ICT enabled learning methods have been introduced in all the courses. Simulation laboratories have been set up to enable understanding of the basic concepts. Video based learning along with regular chalk and talk pedagogy are being followed.

There is a system of compulsory internal and external valuation of theory papers in all courses. If the difference between the two valuations is 15% and above, there will be a third valuation.In such cases the average of the two marks, which would be closest to the median among the three valuations shall be awarded to the student.

For Medical Post graduation courses, each theory paper shall be valued by four examiners (both internal and external) and average marks of the four valuations are considered for that paper for declaration of results. If the difference between highest and lowest marks among the four valuations exceeds 15% and above, the paper shall be subjected to fifth valuation.. In

7.(i). BGS INSTITUTE OF TECHNOLOGY

Under the aegis of Sri Adichunchanagiri Shikshana Trust (R.), BGS Institute of Technology (BGSIT), BG Nagara was established in 2005.The institution is approved by All India Council for Technical Education (AICTE), New Delhi and recognized by Government of Karnataka. The College is committed to the cause of producing tomorrow's engineers & working on today's pioneer. We pay emphasis for the enhancement of skills among the students and ultimately prepare them to serve the nation. Our mission is to increase the number of quality engineers so that they can serve the society adequately.

The institution has got very good infrastructure, faculty and other common facilities for implementing effective Teaching – Learning process. The college has a well defined system for implementing the curriculum for each programme. It has the unique distinction of having learned faculty for teaching respective disciplines. The dynamic and committed faculty and staff ensure high standards of learning and embedding social and ethical values.

Vision

BGSIT is committed to the cause of creating tomorrow's engineers by providing quality education inculcating ethical values.

Mission Statement

- Imparting quality technical education by nurturing a conducive learning environment.
- Offering professional training to meet industry requirements.
- Providing education with a moral - cultural base and spiritual touch.

Courses of Study:

Undergraduate Programmes

- BE in Electronics and Communication Engineering
- BE in Computer Science & Engineering
- BE in Information Science & Engineering
- BE in Civil Engineering
- BE in Mechanical Engineering

Post Graduate Programmes

- M.Tech in VLSI Design and Embedded System
- M.Tech in Computer Science & Engineering
- M.Tech in Structural Engineering
- M.Tech in Data Analytics

Ph. D Programmes

- Civil Engineering
- Mechanical Engineering
- Electronics and Communication Engineering
- Computer Science & Engineering

Facilities

BGS Institute of Technology is a community that is dedicated for creating tomorrow's engineers and supporting today's pioneers. BGSIT is situated in a lush green and pollution free environment, which is very much favourable and motivates the students to earnestly pursue their studies. The campus is 105 kilometres away from Bengaluru City known as Silicon Valley of India on the Bengaluru – Hassan – Mangalore National Highway (NH-48).

- Computing facility in all Departments
- Internet facility in all Departments 150 Mbps Internet Connectivity
- Seminar Halls with Audio-Visual equipment in each Department
- Separate High – Tension Power-line
- Separate Boys / Girls Rest Rooms
- Language Laboratory
- Kotak Mahindra Bank Extension Counter
- Medical Facility – Visiting Doctor at Hostels

Well Equipped Computer lab:

To keep in pace with technology for teaching and training for the student's sufficient computers are available in the lab for the students with the 150 Mbps dedicated LAN facility. The lab consists of 500 computers connected through LAN and has all the required legal software as per the norms and the university syllabus.

Well-Equipped Chemistry lab:

Well equipped modern lab with all safety measures for the safety of the students. Individual attention will be given for all students to instrumentation analysis.

Well-Equipped Physics lab:

Well-equipped modern lab with all infrastructural facilities as per the norms. Individual equipment to each & every student will be given for experiments. The major equipmentare Spectrophotometer, Travelling microscope & many more optical instruments.

Library and information Center:

BGSIT Library System consists of a Central Library which supports the teaching, research and extension programmes of the Institute. All students, faculty members and employees of the Institute are entitled to make use of the Library facilities on obtaining library membership. The Library has a huge collection of

K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

books on engineering, science, humanities & as well as various journals, magazines & newspapers are also subscribed.

Library Services:

Text books:

Text books are the most reliable source of information to the Faculty and the Students of B G S Institute of Technology especially for course/syllabus related reading. The section has approximately 20,500 syllabus related text books.

The books for this section are purchased generally on the recommendation from different faculty members through the concerned Head of the Department. The timings for issuing the Books from the Text Book Section are from 9 AM to 5 PM during Monday to Friday. The books of this section may be returned during 9 AM to 5 PM only. Total of 3 books are issued from the section at a time per student.

Reference:

Readers may approach the Reference and Membership Desk for information or any assistance in the use of the Library Collections and Services. Users may contact Computer Applications Division for the computerized services, CD ROM Based Search Services and Web-based electronic journals. For special information requirements, users may also reach in-charge of Readers Services/Serials Division or the Librarian.

Periodical:

A good number of journals and magazines, both technical and general in nature, are subscribed to library. Latest issues will be displayed as and when received.

Bibliographic:

The library has prepared a list of Reference Books for the benefit of user community. Booklet containing the details of all reference oriented documents will publish.

K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

CD-Rom:

The CD-ROMs received along with books/journals/conferences are available in the Reference Section and the facility can be availed from 9.00 AM to 5.00 PM on all working days.

Digital Library comprising of 25 systems with digital access to E-consortium of VTU has been established in the BGSIT Central Library. This project worth Rs.40 lakhswas funded by VGST.

News paper clippings:

Important and relevant information published in dailies will be displayed on library notice board regularly and the same will be updated once in a month on library website.

Question bank:

Previous years VTU Question papers are arranged subject wise in multiple copies and will be provided to users to take photocopies on request. The soft copies of question papers are available on library website which can be downloaded.

OPAC:

Open Public Access Catalogue: OPAC contains over 30,000 bibliographic records, with more records being added on a daily basis. It is one of the most widely used databases of the library and is accessible 24×7 via library web page. Besides listing all the documents available in the library, it allows on-line renewal and reservation, circulation, fine collection, and indicates status of a particular book. The OPAC is searchable & allows users searching any combination of author, title, subject/keywords, accession number, subject and several other fields of methods.

7.(ii). ADICHUNCHANAGIRI INSTITUTE OF MEDICAL SCIENCES (AIMS)

Adichunchanagiri Institute of Medical Sciences (AIMS) was started in the year 1986 under the stewardship of Paramapoojya Jagadguru Padmabhushana Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji, who was also the President of the Sri Adichunchanagiri Shikshana Trust (R). Since 1986, AIMS has been imparting education in Medical sciences (MBBS, MD/MS, Diploma courses). It is recognized by the Medical Council of India, General Medical Council, London, UK. The College was earlier affiliated to the Rajiv Gandhi University of Health Sciences, Karnataka and now it is a Constituent college of Adichunchanagiri University. The University is currently guided by the Hon'ble Chancellor.

VISION

The institution will seek to be a centre of excellence with emphasis on socially meaningful Medical Education, Research and Healthcare.

MISSION STATEMENT

1. To provide outstanding educational experiences to the students through competent facilitators and supportive infrastructure that transforms today's students to tomorrow's confident, socially responsible health care providers.

K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

2. Strives to provide comprehensive, culturally sensitive, cost effective, community-oriented quality health care services to the society.
3. To facilitate community relevant quality research studies and research training programmes to the students and faculty by providing stimulating environment that nurtures original thinking.
4. To inculcate value system and ethical principles of righteousness, honesty, integrity and dignity among students, staff and other stakeholders enabling them to serve with social justice and equity.
5. To ensure innovative approaches and entrepreneurial skill developments, promoting creative thinking among the learners, to foster regional, national and global competencies.
6. Promoting cutting-edge technology enabled learning by effective use of ICT in all teaching learning methods.

Facilities

AIMS is housed in a unitary Wi-Fi enabled campus of about 48.22 acres of unpolluted and pristine surroundings near its teaching hospital with plenty of room for future expansion. All buildings are spacious from within while their exteriors are aesthetically designed. The College complex features large, digitally enabled Theatre Classrooms, Lecture Rooms, Laboratories, R & D Center, an Anatomy Museum, the Administration Block and an Open-Air Stage in its Central Courtyard. The Campus also features an elegant Residency complex for students, a Food Court, tennis and a basketball court and a bank with ATM facilities.

The aesthetically built centrally air-conditioned Auditorium is AIMS' pride-of-place with towering columns and majestic steps that lead into a hall of 2000

seating capacity 6 complete with a professionally designed stage fitted with motorized screens and a sophisticated sound and light system. At the ground level of this magnificent edifice is a state-of-the-art, centrally air-conditioned Learning Resource Center featuring the latest volumes of medical literature, a Digital Classroom and vast study areas.

Adichunchanagiri Hospital and Research Center (AHRC) was commissioned in 1990 to render affordable healthcare services to the poor and the needy. The programmes offered here include assessed clinical experiences, an essential component of academics, supported by purpose-built facilities & technology, designed to replicate real-life situations. Advanced coursework is informational and enriched by hands-on learning from mentors who push the boundaries of knowledge.

Today, the Hospital provides priceless teaching and training ground for AIMS Undergraduates and Postgraduates who benefit from the experiences of renowned doctors. To study at AIMS therefore is a matter of active learning in an atmosphere of intense intellectual excitement.

The Hospital has 1050 beds under one roof with a built-up area of 33151 sq. The hospital has state-of-the-art infrastructure and the most advanced equipments. It is a tertiary care hospital and is dedicated to serve the poor and downtrodden with affordable and quality healthcare.

The hospital also offers round the clock diagnostic services in Hematology, Biochemistry, Clinical Pathology, Cytology &Histopathology, Microbiology & Serology, Radio diagnosis & Imaging and Immunology.

All hospital clinical departments are supported by 24×7 services like in-house Central Sterile and Supplies Department, in house Hospital Laundry, Drug Stores, Medical Gases, Security, Ambulance Services, Medical Record Department, Hospital Management Information System, Mortuary, Dietetics, Cafeteria, Public Relations & Telecommunications, Medico-Social Welfare Department, Voluntary Services (Helping Hand) and Clinical Trial Management Services.

The hospital is geared to provide excellent service in multi-disciplinary ICU, Surgical ICU, Isolation ICU, Pediatric ICU, Neonatal ICU, Cardiac ICU, Respiratory

7.(vii) ADICHUNCHANAGIRI INSTIUTE FOR MOLECULAR MEDICINE

Adichunchanagiri Institute for Molecular Medicine (AIMM), an esteemed Research Institute of Adichunchanagiri University initiated with the visionary motive by Hon'ble Chancellor. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as a Director, under the able guidance of Prof. K. N. Thimmaiah and Prof. K. S. Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery programme is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modiKiers, cell cycle regulatory enzymes and proteasomes can be a great target which can be modulated by using these synthetic molecules with outstanding selectivity and potency.

Research: The research centre oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like leishmaniasis and other bacterial infections.

The above scientiKic studies will be achieved in collaboration with the pioneer researchers Prof. Peter J. Houghton from Greehey Children's Cancer Research Institute, USA and Prof. Marry-Ann Bjoronsti from University of Alabama, USA.

Vision

Our vision is to comprehensively understand the risk factor associated with the cancer and any molecular changes that occur due to alterations in protein expression proKile in cancer cells.

Mission Statement

To develop new therapeutic small molecules to target speciKic and aberrantly over expressed protein and other proteins that involved in metastatic process and to identify predictive biomarkers to detect cancer at the early stages, by translational approach.

Facilities: AIMM has well planned laboratories with latest equipments for maintainance of cell cultures, isolation of small molecules and development of small molecule probes to combat cancer and infectious diseases.

Independent Auditor's Report

To the Board of Governors of Adichunchanagiri University (ACU), B G Nagar, Mandya.

We have audited the accompanying financial statements of **Adichunchanagiri University (ACU)**, which comprise the Balance Sheet as at March 31, 2019, and the Statement of Income and Expenditure Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

Opinion:

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the University as at March 31, 2019, and of its financial performance for the year then ended.

Basis of opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the University in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with Governance for the Financial Statements:

Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and results of operations of the University in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Harish Vasanth & Associates BENGALURU Chartered Accountants

[redacted]K SUBBARAYA, SERIALNUMBER=f49819a1c439999601a8258717f6e

In preparing the financial statements, management is responsible for assessing the University's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the University or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the University's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
