

Dr. Dinesha R *M.Sc, Ph.D*

**Assistant Professor / Research Scientist / Scientific Officer
Department of Biochemistry, School of Natural Sciences,
Adichunchanagiri University**

Dr. Dinesha R, obtained his Master's degree in Chemistry from the Kuvempu University, Shankarghatta, Shimoga. Later he worked on the purification and characterization of plant proteins specially focused on Spice sources at Adichunchanagiri Biotechnology and Cancer Research Institute. He registered for Ph.D. program in Biochemistry of University of Mysore. During his doctoral studies, he worked on isolation, purification and characterization of plant protein from Turmeric (*Curcuma longa*). In this study, he was successively purified and identified a Turmeric glycoprotein named as BGS-Haridrin. In the year 2013, he was awarded Ph.D. degree and continued working in Adichunchanagiri Institute for Molecular Medicine. During this period he was worked in a National Cancer Institute, National Institute of Health sponsored RAPID project towards inventing and supplying a cancer preventive molecule. To his credit, he was awarded two intramural major research projects, a worth 6.5 lakhs and he had published 65 research papers (h-7 as on now) published in Pubmed, Science Direct, Elsevier, Bentham Science etc. He had guided more than 30 UG/PG students of Medical, Engineering and Life Science from different Universities of South India and overseas for their dissertation. He was also involved in administrative work at Adichunchanagiri University as Special Officer to Pro-Vice Chancellor & Dean, Research, ACU.
