Dr. Vivek, H.K, obtained his Master's degree in Biochemistry from the University of Mysore. Later he joined Central Food Technological Research Institute, Mysuru, where he worked on the purification and isolation of taste peptides, and its taste peptide sequence. After completing the project, he joined for Ph.D in Applied Science (Biotechnology) from Visvesvaraya Technological University, Belgaum. During his doctoral studies, he was awarded CSIR-Senior Research Fellow, and Ph. D Student Assistantship from TEQIP (Govt of India).

In the year 2016, he was awarded Ph. D and joined M/s. Syngene International (ranked as one of the 25 fastest growing companies in India and 4th rank in Asia) as Senior research associate at the Discovery Chemistry-Analytical Research and Development division, where he worked in various projects from National and International clients, catering various roles to give the best outcome within the stipulated timeline. He is specialized in Venom Biology, Analytical Biochemistry, Medical Chemistry, Enzyme Technology, and Computational Biology. To his credit, he has awarded an intramural major research project worth 4 lakh and he has published 58 research papers (h-15 as on now) and guided more than 30 Master students for their dissertation. He is also working on academic-industry collaboration and consultancy with Nutraceutical Companies. He is also a reviewer for several international journals published by Elsevier, Bentham Science and Royal Society of Chemistry, etc.
