ADICHUNCHANAGIRI
UNIVERSITY

The heraldic design of the logo brings out the heritage look & feel of Adichunchanagiri. The teachings from our past, from our nature and surrounding that has evolved through generation are being taught here to the next generation in a disciplined way from an institution that has a rich traditional foundation.

The colours maroon and Purple give the logo a royal touch while distinguishing it clearly from the many shades of cliched blue that is generally associated with education. The colours also symbolise courage, power, nobility, luxury and ambition.

Purple colour of the logo is inspired from a shade of purple spotted on a peacock by the University Chancellor Jagadguru Sri. Sri. Sri. Dr. Nirmalanandanatha Mahaswamiji and is also a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolises Global standards of education, with India part of the map strategically fitting within the 'U' as though it is being highlighted, for it is today an education destination for students from world over.

“सा विद्या या विमुक्तये”

“Sa Vidya Ya Vimuktaye – that which liberates is Knowledge”

Knowledge or vidya gives power, pleasure, and honor. Both science and spirituality enrich us with knowledge, but that knowledge is superior, which leads us to liberation. Liberation from physical, mental, and external bonds is attained through the control of external nature with the help of science; while liberation from internal bonds is attained through ethics and religion.

Hindu scriptures say: ‘Sa Vidya Ya Vimuktaye; that which liberates is knowledge.’ The main role of knowledge is to free us from all these bondages: fear, doubts, inadequacy, and uncertainty. Total knowledge is apara and para, lower and higher, according to the Mundaka Upanishad.

VISION

Education for all with Value Systems of Equity, Empathy, Enrichment, Excellence, Empowerment, Entrepreneurship and Enlightenment to Serve the Society.

MISSION

Education to all for self-reliance and socio-economic change to develop an inclusive society with shared opportunities and responsibilities.

Empathy towards the less fortunate, the sick, the suffering and the differently abled.

Enrichment to acquire abundant knowledge, requisite skills and appropriate attitude.

Excellence for quality assurance, enhancement and sustenance in academics and research to produce graduates of global standards.

Entrepreneurship for a concept or idea involving the product or service to be delivered, or a new technology to be developed.

Enlightenment to attain wisdom and virtues in life to think beyond self.
