

**ADICHUNCHANAGIRI
UNIVERSITY**

**ANNUAL REPORT
2023-24**

ADICHUNCHANAGIRI UNIVERSITY

VISION

Education for all with Value Systems of **Equity, Empathy, Enrichment, Excellence, Empowerment, Entrepreneurship and Enlightenment** to Serve the Society.

MISSION

Education to all for self-reliance and socio-economic change to develop an inclusive society with shared opportunities and responsibilities.

Empathy towards the less fortunate, the sick, the suffering and the differently abled.

Enrichment to acquire abundant knowledge, requisite skills and appropriate attitude.

Excellence for quality assurance, enhancement and sustenance in academics and research to produce graduates of global standards.

Equity for fairness and social justice by providing equal opportunities.

Empowerment of graduates to become intuitive, innovative and inventive.

Entrepreneurship for a concept or idea involving the product or service to be delivered, or a new technology to be developed.

Enlightenment to attain wisdom and virtues in life to think beyond self.

The heraldic design of the logo brings out the heritage look and feel of Adichunchanagiri. The teachings from our past, from our nature and surroundings that has evolved through generations are being taught here to the next generation in a disciplined way from an institution that has a rich traditional and philosophical foundation.

The colours maroon and purple give the logo a royal touch while distinguishing it clearly from the many shades of clichéd blue that is generally associated with education. The colours also symbolize courage, power, nobility, luxury and ambition. The purple colour of the logo is inspired from a shade of purple spotted on a peacock by the Honourable Chancellor Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji and is a colour associated with wisdom, dignity, independence, creativity, mystery and magic.

The globe icon used within the shield symbolizes Global standards of education, with the Indian part of the map strategically fitting within the "U" being highlighted, for it is today an educational destination for students from world over.

Knowledge or Vidya gives liberty, power, pleasure and honour. Both science and spirituality enrich our knowledge leading us to the liberation from physical, mental and external bonds, while liberation from internal bond is attained through ethics and religion. Quote from Hindu scriptures '*Sa Vidya Ya Vimuktaye*' - that which liberates is knowledge. Thus, the main role of knowledge is to free us from all these bondages- fear, doubts, inadequacy and uncertainty.

Truth is the regime of both science and spirituality. Science is an objective knowledge while spirituality is a subjective knowledge. The former is of the external world, while the latter is of the internal world of our body-mind system. Knowledge of Science is about doing while Knowledge of Spirituality is about being. Essentially, integrating personality with living a mature and balanced life - a holistic way of life.

Hon'ble Chancellor

A University is essentially a community of students and teachers. The two have to work in tandem for the one single purpose of advancing knowledge and disseminating it. If they are at any time distracted from this straight path of pursuing truth for its own sake and get led away, there will be disastrous consequences to the University and the Community.

Education is a process, which contributes to socio-economic development of the Nation. The efforts taken to provide education to the masses, has made India emerge as a knowledge society and an economic power. We feel proud to act as contributors of this social transformation. We get encouragement, by looking at bright and successful careers of our millions of students, which subsequently benefit the society.

In this University, the three things – Sciences, humanities and religion work together as parts of one whole. Human knowledge cannot be divided against itself. Everything that you do is both secular and sacred. Everything that you do is done with the background of eternity. You cannot do a thing unless you have that sense that we are all humble creatures in this world, asked to carry out our particular avocations or activities. Whatever studies we have, whatever learning we possess, whatever skill we acquire, we must take a pledge that we will use them for the betterment of humanity, for the betterment of the human race, for bringing the goal of one man, one humanity and one universe of brotherhood, peace and harmony. It is that kind of pledge that every student should take.

We are pleased to know that Adichunchanagiri University is bringing out its sixth annual report for the year 2023-24 with an incremental increase in the growth and development of the University.

We beseech the divine blessings of Lord Kalabhyraveswara Swamy and Poojya Guruji.
May God bless you all.

Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji

FOREWORD

Hon'ble Vice Chancellor

Greetings from Adichunchanagiri University, BG Nagara

Adichunchanagiri University is a rural area-based Multi-Disciplinary Unitary Campus. In the past five years, it has made considerable progress and development in the areas of Engineering & Technology, Health Sciences, Management & Technology, Humanities & Social Sciences, Natural Sciences and Allied Health Sciences, Humanities & Social Sciences and Natural Sciences under dynamic and visionary leadership of Parama Poojya Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji, The Hon'ble Chancellor of the University.

The University has shown considerable and commendable progress in the infrastructure academics and research, in the form of physical facility, equipment, human resource, academic programs, enrolment of students, research publications, patents and community services. An increase in admission from 150 to 250 students for MBSS Program during the financial year 2022-23 has been one of the highlights of academic progress. Quality assurance, enhancement and sustenance are the hallmark of the University development with NBA, NABH & NABL accreditations and ISO Certifications.

Efforts has been made in capacity building and augmentation of research activities with the recruitment of eminent scientists, notifying proficient Adjunct Faculty, Professor of Practice and equipment upgrade into the system.

I am very thankful to the Hon'ble Chancellor, Poojya Mahaswamiji, all the Authorities, Officers, Employees and Students for their continued support in the rapid growth and development of the University.

Prof. Dr. M. A. Shekar, M.D (Int. Med), FRCP (Edin)

MESSAGE

Registrar

I am extremely happy that Adichunchanagiri University is bringing out its 6th Annual report for the year 2023-24. During the last six years, the University has made enormous progress in Academics and Administration in the Faculty of Health Sciences: Medical, Pharmacy, Nursing & Allied Health Sciences. Also in the Faculty of Engineering, Management & Technology, Humanities and Social Sciences, Natural Sciences. Our accomplishments over the period reflect the strength of our Vision and Mission.

We are happy that there has been a considerable increase in student enrollment for various programs and Courses. So far four batches of students have graduated from the University and these students are pursuing rewarding careers and their contribution to society will be remarkable. The environment-friendly campus has adequate infrastructure and physical facilities for Academics and Research. The Campus possesses around 5574 Students, 432 teaching Faculty, 1175 Non-Teaching Faculty.

As we place this annual report, I am indeed grateful to the Hon'ble Chancellor and Vice Chancellor and University officers for their continuous guidance and support. I express my sincere thanks to the staff for their contribution in bringing out this Annual Report 2023-24.

Dr.C.K. Subbaraya

Student Progression (within 100 words)-

Brief note describing the student's progression after admission from the first year to the final year and after completion of the degree to PG/employment: The Institution 'concern for students' progression to higher studies and/or to employment is dealt under Key Aspect. Identify the reasons for poor attainment, plan and implement remedial measures. Sustainable good practices which effectively support the students facilitate optimal progression.

Student Participation and Activities KEY ASPECTS institutional provisions facilitate vertical movement of students from one level of education to the next higher level or towards gainful employment.

- Monitor student progress
- Promote continuous achievement
- Provisions for individual differences
- Promote students' assuming responsibility for their own learning and attendance
- Provide effective, engaging instruction and remediation
- Document instruction in and student mastery of the standards.
- Understanding student behavior and improving classroom interaction

Student Empowerment (within 50 words)

- Involve students in classroom curriculum planning
- Give students an opportunity to make their own decisions about how to present their work
- Encourage students to use technology in the classroom with meaningful applications
- Create guided assignments for students to teach the lesson in class
- Give students a guided place to ask questions and discuss curriculum
- Find out what students are passionate about and use those things to inspire their learning
- Give students an opportunity to share exceptional work with their peers
- Enable students to self-assess their work

Student counseling (within 50 words)

- The Institute has a Mentoring system under which each class is divided into 3 batches of about 20 students and a teacher is assigned as a Mentor for each batch.
- Mentors maintain the details of student's address, their parent's details, contact numbers, academic, co-curricular extra-curricular achievements.
- The statement of marks and attendance of the students after every internal will be sent to the parents. Mentor also interacts with parents/guardians of the students as and when necessary.
- An independent login is provided to every student in DHI for sharing the pertinent information like attendance, academic performance, feedback etc.,

Progression of UG students (MBBS) of 2023-24 batch following admission in the year 2018

Out of 150 students admitted to 1st MBBS during academic year 2018-19, 141 students appeared for final MBBS Part 2 university exams & 131 students passed & entered internship.

vii. Student Empowerment (within 50 words)

Student empowerment activities are organized by the institution through its student support cell in Association with National Service Scheme committee, Youth Red Cross Committee and other committees / departments of the institution to provide awareness about existing health scenarios in the community and challenges faced in improving the same and also to strengthen their own personalities.

Objectives of Student Support Cell

- To provide counselling and health services in an accessible and nurturing environment that recognizes the unique needs of the student community.
- To offer support to students in adjusting to a new environment as well as social or personal challenges that are specific to their age group and circumstances. (socialization)
- To spread awareness about ways to cope with academic pressures that often lead to mental health difficulties, and to assist students with the academic concerns that emerge from dealing with health condition.
- To help combat the general social taboos associated with anxieties and depression on campus, and to foster a positive outlook among students.
- To support the students in their academic and social pressures
- To help them to come up with the common problems faced among the students' community like peer pressure, adolescent problems & mounting career demand which may interfere in their pursuits.

Interactive Sessions & Awareness Programmes:

Major activities conducted:

- World Mental health week celebrated from 10th to 14th October: workshop title " Awareness on Mental Health-through life Skills Approach" Conducted on 10/10/2022 and the total number of Student participated is 200 conducted by Department of Psychiatry and Clinical psychology in Association With Sri Adichunchanagiri college of pharmacy(SACP), AIMS
- Health awareness programme/ Dental health check-up/ Dental health awareness/ Life skill programme and Breast cancer awareness and screening programme from 9th to 14th Jan.2023 conducted by Community Medicine in association with Kannada

Balaga, Dental Department.

- Hepatitis B Vaccination for students - February 6- 8th, 2023 conducted by Student support cell in association with NSS, AIMS Unit.
- National Science Day is celebrated every year on 28th February to mark the discovery of the 'Raman Effect' by Sir C.V. Raman on 28 February 1928. It was this discovery that got Sir C.V. Raman a Nobel Prize in Physics in 1930.
- Workshop on 'Skills for Academic success' on May 11th, 2023

In addition to the above, the Grievance redressal cell, anti-ragging committee and sexual harassment prevention committees of the institution are functioning regularly to address any kind of student grievances.

v. **Student counselling:**

Mentor-ward system of the institution conducts regular meetings of the mentor and wards at all phases which provides updated information on the ward's academic performances and also provide a platform to address any issues pertaining to their academics, which is also updated to the parents through e-mail correspondence and formal parent-teacher meetings.

4. Key Elements of a Successful Mentor-Mentee Program:

- (a) Clear Expectations: Establishing clear expectations and goals for the mentor-mentee relationship is vital for its success. Both parties should understand their roles and responsibilities.
- (b) Regular Meetings: Consistent interactions between mentors and mentees facilitate rapport building and ensure continuous support throughout the academic journey.
- (c) Confidentiality and Trust: A mentor-mentee relationship should be based on trust and confidentiality. Mentees should feel comfortable sharing their concerns and aspirations without fear of judgment.
- (d) Structured Feedback: Constructive feedback from mentors helps mentees identify their strengths and areas of improvement, fostering professional growth.

Conclusion:

The mentor-mentee system in our Medical College plays a crucial role in shaping the

next generation of healthcare professionals. By providing personalized guidance, emotional support, and fostering an environment of continuous learning, this system empowers medical students to become competent, compassionate, and ethical doctors.

Mentee Mentor Ratio: 10:1 for first year students

ADICHUNCHANAGIRI HOSPITAL AND RESEARCH CENTRE (AHRC)

Adichunchanagiri Hospital and Research Center (AHRC) was commissioned in 1990 to render affordable healthcare services to the poor and the needy. The programmes offered here include assessed clinical experiences, an essential component of academics, supported by purpose-built facilities & technology, designed to replicate real-life situations. Advanced coursework is informational and enriched by hands-on learning from mentors who push the boundaries of knowledge. Today, the Hospital provides priceless teaching and training ground for AIMS Undergraduates and Postgraduates who benefit from the experiences of renowned doctors. To study at AIMS therefore is a matter of active learning in an atmosphere of intense intellectual excitement.

The hospital has state-of-the-art infrastructure and the most advanced equipment. It is a tertiary care hospital and is dedicated to serve the poor and downtrodden with affordable and quality healthcare. The hospital also offers round the clock diagnostic services in Hematology, Biochemistry, Clinical Pathology, Cytology & Histopathology, Microbiology & Serology, Radio Diagnosis & Imaging and Immunology.

The hospital has superspeciality departments in Neurosurgery, Neurology, Nephrology, Urology, Plastic Surgery, Cardiology and Gastroenterology.

24×7 services like in-house Central Sterile and Supplies Department, in house Hospital Laundry, Drug Stores, Medical Gases, Security, Ambulance Services, Medical Record Department, Hospital Management Information System, Mortuary, Dietetics, Cafeteria, Public Relations & Telecommunications, Medico-Social Welfare Department, Voluntary Services (Helping Hand) and Clinical Trial Management Services support all hospital clinical departments.

The hospital is geared to provide excellent service in multi-disciplinary ICU, Surgical ICU, Isolation ICU, Pediatric ICU, Neonatal ICU, Cardiac ICU, Respiratory ICU and Renal ICU. These specialized intensive care units are specially staffed and equipped to provide the highest level of care to patients.

AHRC caters to the healthcare needs of rural masses from a wide geographical area including 5 districts namely Mandya, Hassan, Tumakuru, Ramanagara and Bengaluru.

As a part of the institution's social responsibility, AHRC conducted various health camps all through the year to serve the rural people with a sole objective of providing healthcare at the door steps of the poor and needy, health education and creating awareness on the various dimensions of healthy living as part of the celebrating National Programs on health as prescribed by the Central Government and WHO.

AHRC has conducted a total of 215 health camps, 19 General health check-up camps & Blood Donation camps, 151 Eye Camps in association with Jilla andatva nivarana samste, Hassan, Mandya, Tumakuru, 01

STUDENT PROGRESSION NOTE

Sri Adichunchanagiri College of Pharmacy ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory.

Progression of a student is reviewed and monitored by the following modes:

- Class attendance
- By conducting Internal assessment
- By Mock Examination
- Problem Based Learning (PBL)
- Mentor-Mentee programs
- Inter and Intra college level quiz
- Assignments
- Student Interaction in the class
- Peer Learning Activities
- Outcome-Based Internship
- Case-Based Studies

STUDENT COUNSELLING REPORT 2023-24

Purpose of Counseling was to:

- Understand students learning ability in academics.
- Assist student work out a plan for solving their difficulties.
- Know their interests, strengths, weakness and opportunities.
- Encourage special talents and nurture them to develop.

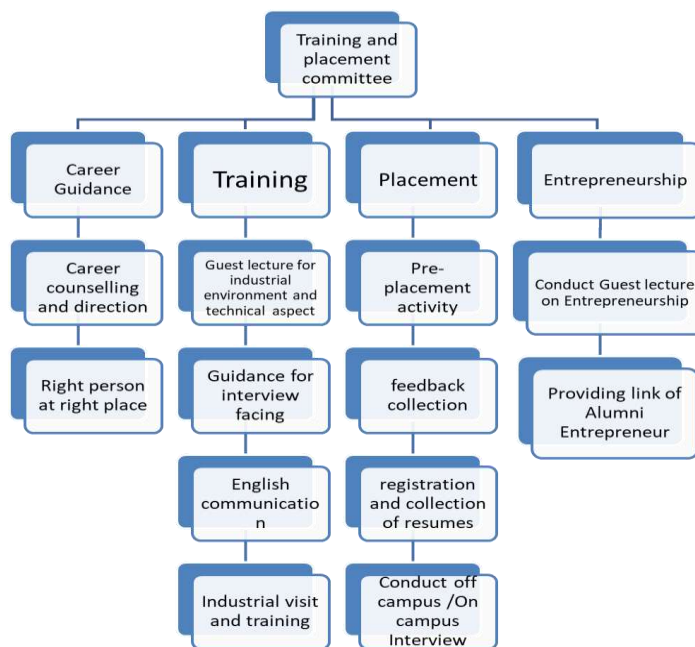

Students Counseling:

Each faculty counselor was allotted with 15-20 students and they arranged minimum three counselling sessions in each semester i. e Monthly Counseling Session (Before Exam, After Announcement of Results). The faculty counsellor collected all the details pertaining to the students and keeps a record of attendance of all the courses of the counselling group and communicated to the parents (three times per semester) through SMS/alternative methods time to time. The report comprised of theory attendance, practical attendance and Internal Assessment marks. The counselors arranged meetings with parents whenever they found any issues such as the low attendance or poor performance in the examinations etc. While interacting with the students during the counseling session, their grievances were collected; suggestions were provided by the counselor regarding their grievances. Overall Student progress record of a student is depicted in ERP. Students were encouraged to express their views and suggestions for academic and other infrastructural improvements in the college. Head of the Departments takes necessary actions to implement their valid suggestions.

Training and Placement Cell:

Training and Placement Cell in the Sri Adichunchanagiri College of Pharmacy plays a vital role and is becoming a key department of the institute. As there are large numbers of Pharmacy colleges coming up in India, the competition for employment is increasing every day and the job of placement is becoming a challenging one.

STUDENT PROGRESSION NOTE

Adichunchanagiri School of Natural Sciences ensures all students are passing required units to progress in their graduation. In this institution, student's activities are reviewed on regular basis to determine whether progress of individual student is satisfactory.

STUDENT EMPOWERMENT

Student empowerment means giving students the ability to not only have a voice and share their thoughts and ideas, but to believe that their voice can lead to positive change. Empowerment is closely linked to self-efficacy and agency. It helps the students gain the power of authority to come out with their decisions for the things they want to implement and the changes they want to see in their educational institutes. Adichunchanagiri School of Natural Sciences help the student to be empowered learners with the qualities of self-motivated, curious, willing to take risks in their learning process, to have a growth mindset and seeing challenges as opportunities for growth and development, rather than obstacles to be overcome.

Orientation Program -2023

The orientation program at Civil Seminar Hall – BGSIT, conducted by Adichunchanagiri Institute of Natural Sciences (ASNS), saw the participation of approximately 60 members. The event commenced with an address by the Principal, Dr. Shwetha, setting the tone for the proceedings.

Dr. Vidya Shankari D, Assistant Professor from the Department of English and Management Studies at Adichunchanagiri University, B.G. Nagara, delivered an insightful talk on "**Language Skill Development Program.**" Her presentation captivated the audience, offering valuable insights and provoking thoughtful reflections, particularly resonating with our undergraduate students at ASNS.

Special Talk on Machine Learning for Biologists

Training on Soft Skills

"Training on Soft Skills" organized by the School of Natural Sciences from March 4th to March 8th, 2024. The event aimed to enhance the soft skills of students from diverse courses, including Biochemistry, Molecular Biology, Microbiology, Biotechnology, Physics, and Chemistry. Distinguished speakers, Mr. Babu Rao and Mrs. Arpitha, delivered insightful sessions throughout the week.

The schedule encompassed three key sessions:

CULTURAL ACTIVITIES CONDUCTED

Freshers party 2023-2024

Adichunchanagiri School of Natural Sciences organized Freshers Day (Freshers Fiesta2024) on 3rd February 2024 to welcome the new batch of UG and PG students 2023-20024.

Sports Meet-2024

Sports meet was conducted for two days from 12th to 14th Jan 2024 at ACU play ground, Adichunchanagiri University, BG Nagara, Mandya District

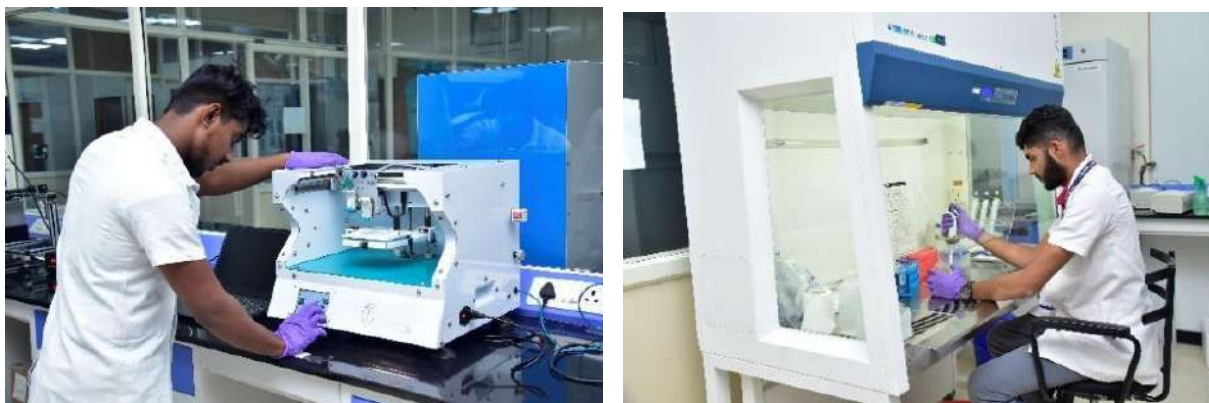

ACU - CENTRE FOR RESEARCH AND INNOVATION

The 21st century has witnessed a paradigm shift in the global higher education landscape. Universities are no longer solely measured by their ability to impart knowledge but by their commitment to fostering research, innovation, entrepreneurship, and advancing scientific progress. Institutions equipped with robust Research and Innovation (R&I) systems are garnering international acclaim, attracting top-tier faculty and students seeking to push the boundaries of knowledge. This trend coincides with a burgeoning interest in postgraduate studies, with a rise in the number of applicants pursuing Ph.D. programs worldwide. Recognising this evolving educational ecosystem, Adichunchanagiri University (ACU) has embarked on a strategic initiative to fortify its research infrastructure. In response to this growing emphasis on R&I, ACU established a state-of-the-art research hub – the Centre for Research and Innovation (CRI) – on October 9, 2020.

The CRI is a cornerstone of ACU's commitment to nurturing a vibrant research culture and propelling the university to the forefront of academic excellence. In its quest to propel research excellence, the Centre for Research and Innovation (CRI) actively fosters collaborations with leading national and international institutions like Wits University, The Centre for Cellular and Molecular Platforms (C-CAMP), CCAMP Inter-Institutional Biomedical Innovation Programme (CIBIP), DST NIDHI (Dept. of Science & Technology - National Initiative for Developing and Harnessing Innovations (NIDHI)), Karnataka Science and Technology Promotion Society (KSTPS) and Karnataka Silk Board. These partnerships provide ACU researchers access to world-class facilities and expertise and enhance the university's global visibility and reputation. By fostering a collaborative research environment, CRI is not just a hub for research but a beacon of hope, well-positioned to address complex challenges and significantly contribute to various fields of knowledge, inspiring us all with its potential.

3. Research, Innovations and Extension

3. i. Research Laboratories

Research Infrastructure (RI) is paramount for funding agencies, policymakers, and scientists. Consequently, the development of scientific infrastructure holds critical importance in the nation's advancement, emphasising facilitating accessibility and optimising utility. In line with this, ACU is committed to establishing Research Infrastructure at ACU-CRI. The University has procured world-class equipment to furnish faculty members with state-of-the-art infrastructure, detailed below.

Sl. No.	Equipment

ADICHUNCHANAGIRI INSTITUTE FOR MOLECULAR MEDICINE(AIMM)

Adichunchanagiri Institute for Molecular Medicine (AIMM), an esteemed Research Institute of Adichunchanagiri University initiated with the visionary motive by Hon'ble Chancellor Parama poojya Jagadguru Sri Sri Sri Dr.Nirmalanandanathaswamiji. The institution has oriented its focus in discovery and development of small molecule probes and cancer drugs under the leadership of Dr. Shobith Rangappa as the Director, under the able guidance of Prof. K.N.Thimmaiah and Prof. K.S.Rangappa. The small molecules are naturally available from natural products or synthetically formulated. This drug discovery Program is integrated with computational biology and medicinal chemistry to maximize the selectivity and potency of a lead molecule. Recent studies unveil that protein kinases, protein phosphatases, chromatin modifiers, cell cycle regulatory enzymes and proteasomes can be a great target, which could be modulated by using these synthetic molecules with outstanding selectivity and potency.

Research

The research center oriented its focus in discovery and development of small molecule probes to target cancer and other deadly infectious diseases like Leishmaniasis and other bacterial infections.

The small molecules available from natural products or synthetically formulated, which can be used to modulate the;

- Extracellular growth factors,
- Intracellular transcription factors,
- Proteins lacking enzymatic activities

The above scientific studies will be achieved in collaboration with the pioneer researchers Prof. Peter J. Houghton from Greehey Children's Cancer Research Institute, USA and Prof. Marry Ann Bjoronski from University of Alabama, USA.

CENTER OF RESEARCH MANAGEMENT & INDUSTRIAL LINKAGE(CORMIL)

&

**CENTER FOR MOLECULAR PHARMACEUTICS AND ADVANCED THERAPEUTICS
(CMPAT)**

Operation Unit of CORMIL shall be responsible to manage and facilitate all internal and external active research grants in ACU.

The Unit shall undertake the acquisition of the grants by performing specific activities such as promotion, management and administration of research grants in ACU at national, private and international level.

The unit shall work closely with the grants agencies at national level such as, Department of Science and Technology (DST), University Grant Commission (UGC), Funding schemes of Ministry of Environment and Forests, Govt. of India, Indian Council of Agricultural Research (ICAR), Indian Council of Medical Research (ICMR), and India Innovation Growth Programme etc. Further, the unit shall explore international outreach.

In order to facilitate and encourage ACU research, there have been provisions of internal grants to the selected researchers, within the university. The very objectives of such grants are to create and tune ACU in house researchers to get trained, so to attract research grants at national and international level. These internal research grants shall also be monitored through the Operation Unit under CORMIL.

2. **Monitoring Unit of CORMIL** shall focus on reporting and monitoring the progress of registered research under CORMIL and so also shall oversee the applications regarding conference attendance.

This division shall look into the research progress of all registered research to ensure that the Principal Investigators achieve their expected requirement. Reports of the progress shall be compiled and sent to the sponsors (national/international) based on the timeframe given.

Further the unit shall deal with issues involving project extension, change in Principal Investigator in case of the relocation of the same, addition and removal of the project members.

3. **Data Collection and Compilation Unit of CORMIL** shall involve in data acquisition relating to research and linkages from all constituent colleges, besides that of the principal investigators, and those will be utilized during the time of inspection and as well for retrospection. This unit shall be responsible to (i) prepare periodical report, (ii) check and process applications meant for conference attendance, and (iii) record the number of publications out of each of the registered research.

4. **Ethics and Empowerment Unit** shall work to strengthen ACU journal and future publishing endeavor, academic visibility, research impact and as well ethics. The unit will be involved in organizing workshops, briefings and seminars for scientific writing, to enable the ACU researchers to be a part of the scientific publishing community by increasing the numbers of quality ACU

publications.

5. **Consulting Unit shall** look after the different aspects of the academic involvement in providing solutions to industry problems. The main focus shall be on technology transfer and business development on the basis of which ACU shall strive to be an entrepreneurial University. As a part of this endeavour the unit shall take care of the creation and functioning of research incubators to encourage budding and aspiring young entrepreneurs to grow individually and resulting a natural dissemination of that growth in the form of (i) job creation, (ii) economic enrichment, (iii) rural upliftment, urban development, nation building, and (iv) ACU brand propagation at the national and global arena. Those incubators in future shall work as a training grounds/ place of apprentice for the ACU students. So in totality this unit shall work as a catalyst for the transformation of ACU students into next generation of professionals in their respective fields with all in-built professionalism so as to cater to global requirements.

CENTER FOR MOLECULAR PHARMACEUTICS AND ADVANCED THERAPEUTICS (CMPAT)

INCUBATION CENTER

At Adichunchanagiri University, we pride ourselves on fostering innovation and nurturing the entrepreneurial spirit among our students. Our Incubation Center stands as a testament to this commitment, serving as a dynamic hub where ideas are transformed into thriving prototypes or ventures.

Our Incubation Center is designed to provide a supportive environment for aspiring entrepreneurs from diverse academic backgrounds. Whether you're a student with a bold idea or a faculty member exploring entrepreneurial opportunities, our center offers a range of

resources and support services to help you succeed.

One of the key pillars of our Incubation Center is collaboration. We believe that innovation flourishes when individuals from different disciplines come together to exchange ideas and perspectives. Through interdisciplinary interactions, our center encourages creative thinking and problem-solving, laying the groundwork for groundbreaking innovations.

Moreover, we understand that turning ideas into successful prototypes or ventures requires more than just inspiration – it requires guidance, mentorship, and access to resources. That's why our center provides comprehensive support programs, including mentorship opportunities, workshops on business development, access to funding sources, and networking events with industry leaders and alumni.

In addition to personalized support, our Incubation Center offers state-of-the-art facilities to facilitate the prototyping and development process. From co-working spaces to prototyping labs equipped with cutting-edge technologies, we provide the tools and resources you need to bring your ideas to life.

At Sri Adichunchanagiri college of pharmacy, BG Nagara, we believe in learning by doing. Our Incubation Center offers hands-on experiences that empower students to develop essential skills such as critical thinking, problem-solving, and leadership – skills that are essential for success in today's competitive landscape.

Whether you're a student entrepreneur with a vision for change or a faculty member looking to translate research into real-world impact, our Incubation Center is here to support you every step of the way. Join us in unleashing your potential and making a positive impact on the world through entrepreneurship.

Welcome to our Incubation Center – where ideas take flight.

The Centre of Research Management and Industrial Linkage (CORMIL)

CORMIL - established in 2019, serves as a pivotal hub for fostering transdisciplinary and translational research endeavors. Its primary objectives encompass motivating researchers to explore cross-disciplinary boundaries and translate their findings into practical applications. Here's an overview of its key functions:

Transdisciplinary & Translational Research Motivation: The center actively encourages researchers to collaborate across different disciplines, recognizing the value of interdisciplinary approaches in tackling complex societal challenges. By bridging disciplinary gaps, it aims to enhance the scope and impact of research outcomes.

Hands-On Training: One of its core functions is to provide students with practical, hands-on training using various equipment relevant to their fields of study. This experiential learning approach not only enhances students' technical skills but also prepares them for real-world applications and industry settings.

Industry-Academia Partnership: The center plays a pivotal role in fostering strong collaborations between academia and industry. By facilitating partnerships, it seeks to bridge the gap between theoretical knowledge generated in academic settings and its practical implementation in industry.

This collaboration benefits both parties by promoting knowledge exchange, technology transfer, and collaborative research projects.

Program Organization: The center takes the initiative to organize and conduct various programs aimed at promoting research, innovation, and industry-academia collaboration. These programs may include seminars, workshops, conferences, and networking events, providing platforms for knowledge sharing, idea exchange, and collaboration opportunities.

Overall, the Centre of Research Management and Industrial Linkage serves as a dynamic catalyst for promoting research excellence, fostering innovation, and facilitating meaningful collaborations between academia and industry, thereby contributing to societal development and economic growth.

Summary Report

THREE DAYS WORKSHOP ON DESIGN

THINKING

Adichunchanagiri Center for Entrepreneurs, (ACE), CORMIL, IIC & Faculty of Pharmacy, AdichunchanagiriUniversity, Organized & a three-day workshop on Design thinking for 60 B Pharm students on 11 to 13 Dec 2023 at Yuvalaya, Faculty of Pharmacy, ACU, BG Nagara. Mr. Rakesh Totakar, Head, the Students Pre Incubation Program, Deshpande Foundation & Mr. Rohit RV, Managing partner, Innovascope LLP were resource persons.

Students were extensively trained on the Topic Design thinking. Briefly, design thinking is a problem- solving approach that has gained popularity in various fields, including the life sciences and medicine.Design thinking typically involves the following key stages:

- Empathize: Understand the needs and perspectives of the end-users, such as patients or healthcare professionals. This step involves conducting interviews, observations, and gathering relevant data.
- Define: Clearly articulate the problem or challenge based on the insights gained during the empathize stage. This step involves synthesizing the gathered information to create a problemstatement.
- Ideate: Generate a wide range of creative ideas and potential solutions. Encourage brainstorming sessions and explore diverse perspectives to foster innovation.
- Prototype: Develop tangible representations of your ideas. This could be a physical model, a simulation, or even a simplified version of a drug delivery system. Prototyping helps in visualizing and testing concepts.
- Test: Gather feedback on the prototypes and iterate on the designs based on the

insights gained. This step involves continuous refinement of ideas to enhance their effectiveness.

Following are the Outcomes of this Workshop

- Identification of key challenges in drug delivery systems.
- Generation of innovative ideas for improving drug absorption and developing novel drug delivery mechanisms.
- Tangible prototypes that serve as proof-of-concept for potential solutions.
- Enhanced collaboration and cross-disciplinary understanding among participants.

The entire event was coordinated by Dr. Vedamurthy Joshi & Dr. Naga Prashanth K under the guidance of Dr. Bharathi D R, Principal, Faculty of Pharmacy, ACU, BG Nagara

The poster is for a 'Three days Workshop on Design Thinking' held at Sri Adichunchanagiri College of Pharmacy, B.G. Nagara. It features the college's logo and name at the top, along with accreditation logos for NIRF and NEA. The workshop is in association with 'Deshpande Startups'. Two resource persons are listed: Mr. Rakesh Tolakar (Head, Budget Entrepreneurship Program, Deshpande Foundation) and Mr. Rohit R V (Managing Partner, INNOVASCAPLE LLP). The dates are 11 Dec 23 to 13 Dec 23, and the venue is Yuvalaya, Faculty of Pharmacy, ACU, BG Nagara. The workshop is organized by the IIC Cell, ACE & CORMIL, Faculty of Pharmacy, BG Nagara. A logo for 'REVOLUTIONARY INNOVATION COUNCIL' is also present at the bottom left.

REVOLUTIONARY INNOVATION COUNCIL

MSME - Idea Hackathon

Idea Hackathon 2.0

Introduction Ministry of MSME

Micro, Small and Medium Enterprises (MSME) sector has emerged as a highly vibrant and dynamic sector of the Indian economy over the last five decades. MSMEs play crucial role in providing large employment opportunities at comparatively lower capital cost than large industries and help in the industrialization of rural & backward areas, thereby, reducing regional imbalances, assuring more equitable distribution of national income and wealth. MSMEs are complementary to large industries as ancillary units and this sector contributes enormously to the socio-economic development of the country

MSME Innovative scheme

MSME Innovative Scheme is initiated which is an amalgamation of the Incubation, Design and IPR Schemes of the Ministry of MSME. These erstwhile three schemes will operate as separate verticals with interflows and connections. These verticals will also be integrated sequentially and parallelly into one singular formulation to promote and encourage innovative activities for improved synergy and higher efficiency.

MSME Innovative is a new concept for MSMEs with a combination of innovation in incubation, design intervention and by protecting IPR in a single mode approach to create awareness amongst MSMEs about India's innovation and motivate them to become MSME Champions. This will act as a hub for innovation activities facilitating and guiding development of ideas into viable business proposition that can benefit society directly and can be marketed successfully.

Objectives of the scheme are

- To promote all forms of innovations in the complete value chain from developing ideas into innovative applications through incubation and design interventions.
- To provide appropriate facilities and support for development of concept to market, design competitiveness and protection & commercialization of intellectual creations of MSME sector.
- To promote a culture of innovation and creative problem solving through knowledge sharing and collaboration amongst industry, academia, government institutions, research laboratories etc.
- To serve as a connecting link between industrial/academia leaders and innovators, in order to encourage new product development and hand-holding.
- To focus on developing affordable innovations that can benefit a large number of people and at the same time being commercially viable and sustainable

ACTIVITIES OF THE SCHEME

A. INCUBATION COMPONENT

1. INCUBATION CENTER

- a. Recognition of eligible institutions as Host Institute (HI) to act as Business Incubator(BI)
- b. Approval of Ideas of Incubatees submitted through Host Institute (HI)
- c. Assistance for nurturing of Ideas to HI
- d. Assistance towards Capital Support to HI for Plant and Machinery

2. Process flow

- a. Stage 1- At HI Level
- b. Stage 2 - First Stage Screening
- c. Stage 3 - Selection of Ideas by Domain Expert Selection Committee (DESC)
- d. Stage 4 – PMAC (Project Monitoring and Advisory Committee)

3. Financial Assistance to HI for developing and nurturing the ideas

- a. Financial Assistance up to maximum of Rs. 15 lakh per idea shall be provided to HI. Funds will be released after the approval of the idea by PMAC. For the ideas approved of any MSME/others, 15% of the total approved cost will be borne by them and deposited to the HIs. The remaining 85% will be contributed by MoMSME up to a maximum of Rs. 15 lakh per idea. However, students will not be required to pay any amount and the entire cost of idea will be borne by Ministry of MSME up to a maximum of Rs. 15 lakhs per idea.
- b. Funds will be released in following two instalments:
 - i. 70% of the approved project cost as per below mentioned table, after approval of the idea by PMAC and signing of agreement between Host Institute and Incubatee.
 - ii. 30% of the approved project cost after utilization of 60% of 1st instalment utilized and submission of physical verification report by concerned Implementing Agency (IA)

4. Financial assistance for Plant and Machinery to HI up to Rs. 1.00 cr. (max)

- a. Financial Assistance for Plant and Machinery to HI up to Rs. 1.00 cr. (max) shall be provided for procurement and installation of relevant plant and machines including hardware and software etc. in BI for R&D activities and common facilities for incubatees of BI. This assistance will be applicable to HIs who's minimum two or more than two ideas have been approved under the Incubation Scheme. The financial assistance will be applicable for procurement of Plant and Machinery for development of those specific approved ideas. The proposal may be uploaded by the HIs through the MIS portal of the DC MSME website

(<https://innovative.msme.gov.in>). The approval of proposal for plant and machinery will be done by PMAC on recommendation of a Domain Expert Selection Committee (DESC), specifically set up for the purpose

B. DESIGN COMPONENT

a. Design Project: To facilitate MSMEs to develop new design strategies and or design related products through interventions and consultancy.

Design Awareness Programme: The objective is to create general awareness and sensitization about the value and power of design for businesses through seminars, talks, workshops etc. The purpose of these activities is to sensitize MSMEs about the usage of design/innovation in various facets of their industry

C. INTELLECTUAL PROPERTY RIGHT (IPR) COMPONENT:

a. Financial Assistance for MSMEs: Reimbursement for registration of Patent, Trademark, Geographical Indications (G.I.), Design:

b. The applicant shall file the reimbursement application through the portal of the scheme.

c. The same will be duly forwarded after comprehensive scrutiny by the IPFC to MSME for requisite approval. Upon approval of the application by MoMSME, the reimbursement will be done by the IPFC.

d. The maximum financial assistance to the eligible applicants under the IPR component is as follows:

1. Foreign Patent Rs. 5.00 lakh
2. Domestic Patent Rs. 1.00 lakh
3. GI Registration Rs. 2.00 lakh
4. Design Registration Rs. 0.15 lakh
5. Trademark Rs. 0.10 lakh

The financial assistance under the scheme for the reimbursement of expenditure incurred towards registration of patents/trademarks/Designs/GIs, will be a onetime support from GoI subject to condition that same has not been claimed by the applicant under any other scheme of Central Govt./ State Govt.

Patent: The applicant may receive 100% reimbursement of the actual costs or expenses incurred towards the Patent registration with competent authority [including but not limited to facilitation fees, all government fees, design/ diagram and drawing fees, attorney fees, consultancy charges, prior art search and analysis charges, patent application drafting (provisional and complete specifications) charges, charges for patent application prosecution and hearings, examination and publication fees, fee and charges associated with PCT/international/foreign patent filings, other incidental charges]. This should be duly supported by original invoices/bills/receipts with a maximum upper limit of Rs. 1 lakh for an Indian patent and up to Rs 5 lakh for a foreign patent. However, it will not cover the cost incurred on

renewal of applications or any other expenditure incurred towards assignment of IP, correction in application etc.

Trademark: The applicant may receive 100% reimbursement of the actual costs or expenses incurred towards registration of a trademark with competent authority (including but not limited to facilitation fees, all Government Fees, Attorney Fees, consultancy charges, Search Fees, application drafting charges, charges for TM application prosecution and hearing, Examination fees, fee and charges associated with international/foreign TM fillings, other incidental charges etc.) duly supported by original invoice/bills/receipts with a maximum upper limit of Rs. 10,000/- for each registered trademark irrespective of classes.

Design: The applicant may receive 100% reimbursement of the actual costs or expenses incurred towards registration of a design with competent authority (including but not GUIDELINES/ MSME INNOVATIVE/ 2021-2022 18 limited to facilitation fees, all Government Fees, Attorney Fees, consultancy charges, Search Fees, application drafting charges, charges for design application prosecution and hearing, Examination fees, fee and charges associated with international/foreign design application fillings, other incidental charges etc.) duly supported by original invoice/bills/receipts with a maximum upper limit of Rs. 15,000/- for each registered design irrespective of classes.

Geographical Indication (GI): The applicant may receive 100% Reimbursement of the actual costs or expenses incurred towards registering the a GI with competent authority (including but not limited to facilitation fees, Attorney Fees, Maintenance Fees, all Government Fees, consultancy charges, application drafting charges, charges for GI application prosecution, hearing and meeting with GI registry/consultativegroup, expenditures incurred on information collection, GI logo charges, design/diagram and drawing charges, scientific/lab testing, other incidental charges etc.) with a maximum upper limit of Rs. 2 lakhs foreach registered GI. There can be any number of applications may be submitted by the MSME unit for reimbursement; however, the amount will be restricted to the ceilings as per table cited above for per IP registration.

Reimbursement will be made to eligible MSME enterprise subject to receipt of copy of MSME Udyam Registration certificate, copy of patent/trademark/Design/GI registration certificate, copy of bank mandate form & Bills/Vouchers in original.

Establishment of Adichunchanagiri Center for entrepreneurs (ACE), -

A Section 8 company is a legal entity in India incorporated under Section 8 of the Companies Act, 2013. It is established with the objective of promoting arts, science, commerce, education, charity, protection of the environment, sports, social welfare, research, religion, and other similar objectives. Unlike other companies that aim to generate profit for distribution among shareholders, a Section 8 company must reinvest any profits or income into its stated objectives. The unique aspect of this type of company is its dedication to charitable and not-for-profit purposes, providing a structured, legally compliant way to pursue social and philanthropic goals.

One of the primary advantages of a Section 8 company is the various tax benefits and exemptions it enjoys. Given its non-profit nature, it is eligible for several exemptions under the Income Tax Act, which helps it allocate more resources towards achieving its objectives. Additionally, donors to Section 8 companies can also avail tax deductions, making it easier for these companies to attract funding. Furthermore, Section 8 companies enjoy higher credibility and trust among the public, donors, and government authorities due to the stringent compliance requirements and regulatory oversight they must adhere to.

Features

Section 8 companies exhibit several distinctive features that set them apart from other business entities. They are required to have at least two directors (for a private company) or three directors (for a public company) and no minimum capital requirement, allowing more flexibility in terms of initial setup. These companies are prohibited from paying dividends to their members, ensuring that all profits are reinvested into the company's objectives. They are also subject to specific rules regarding the maintenance of accounts and annual compliance, such as the need to have their accounts audited annually and to file annual returns with the Registrar of Companies.

Compliance and Governance

The governance structure of a Section 8 company is designed to ensure transparency and accountability. They must follow stringent regulatory frameworks and corporate governance practices, including regular board meetings, proper documentation of minutes, and adherence to statutory reporting requirements. This ensures that the company's activities are aligned with its objectives and that there is no misuse of funds. Additionally, the need for an annual audit by a qualified chartered accountant ensures financial transparency and boosts credibility among stakeholders, including donors, government bodies, and the public. This robust governance framework helps maintain the integrity and trustworthiness of Section 8 companies, enabling them to effectively fulfill their social and philanthropic missions.
