

CERTIFICATE COURSE IN FAMILY PRACTICE

- Family medicine is a clinical specialty providing cost effective, protocol - based treatment in all discipline, catering to all family members irrespective of age and gender.
- Family medicine practice was a well-recognized medical service provided in our country since many decades. In fact, doctor is considered as a family member.
- Adichunchanagiri University is introducing family practice certificate course to upgrade the knowledge and skills of medical graduates at a time when people are moving towards super -specialty care which fails to provide comprehensive cost-effective primary health care to the community which has led to despair, regarding health care facility.
- AIMS is starting this certificate course with capable/knowledgeable Teaching faculty.
